I have attached the annual reporting forms, cancellation and guide for your interest.

>>> Christine Wilson 3/10/2014 11:09 AM >>>

Mark,

It is the camp that was at Henik Lake owned by Ryan St. John out of Arviat.

In the original Application it had made note that a camp would be constructed.. due to the lack of annual reporting since issuance it was not clear as to what was completed.

The Licence is attached. There are outstanding documents required (2011, 2012, 2103 (due march 31st, 2013))annual reports) 2BE-AUR1116 is an active. If at this time Uranium North Resources no longer require an authorization I strongly suggest to complete a cancellation application to relieve you of the annual reporting duties and water use fees.

Please feel free to contact via phone for to discuss this matter 975-4296

Thank you

Christine

Hi Christine,

I do not recall an Aura Camp held by Uranium North. Where is this camp located?

Mark

Hi Marc,

Would you be the point of contact on the 2BE-AUR1116? Aura Camp held by Uranium North?

Christine
