Subject: Submission of the 2008 Annual Report for Licence No. 2BE-BAF0611

Dear Mr. Beukman;

The Nunavut Water Board ("NWB") has completed a technical review of the 2008 Annual Report. This report was found to be mostly complete, however the submission of an addendum is required by July 1, 2009. The current report includes identical GPS coordinates for the location of the water intake and sump leading to confusion. GPS coordinates are required for all water sources and waste disposal sites. Also, there is a licence requirement to submit photographic records for the water supply and waste disposal facilities and of drill sites before during and after operations as part of the Annual Report.

Should you have any further questions, please feel free to contact the undersigned at (867) 360-6338, at your earliest convenience.

Yours truly,

Original Signed By:

Don Carr
