RE: NWB2BAR APPLICATION

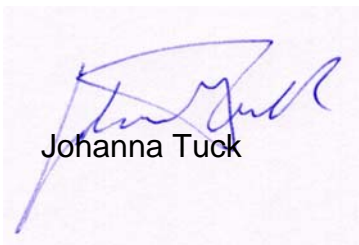

Phyllis,

I am requesting on behalf of Indicator Minerals Inc. that the water license application, NWB2BAR be put on hold until reapplication of the KIA Class 3 land use license is made.

Indicator Minerals Inc. will be conducting several community presentations and meeting with the Community Beneficiary Committee on our proposed work on the Barrow Project this fall. We hope that with further discussions and education on mineral exploration practices that we may get approval from the community of Kugaaruk to begin diamond drilling on the Barrow Property.

If you have any additional questions or require further information please contact me at (250) 344-2345 or via email at johannat@indicatorminerals.com.

Thank you,

Johanna Tuck
