To: Derek Donald <[derek.donald@nwb-oen.ca](mailto:derek.donald@nwb-oen.ca)>

Hi Derek.

The information below was provided to me by David Kelsch who was the VP Exploration for Bluestone Resources Inc. in 2013 when work on the Water Licenses and Land Use Permits ended in Nunavut:

BAR0712 related to the Barrow project just south of the community of Kugaaruk – Barrow was very close to town so the crews stayed in Kugaaruk and flew back and forth daily. Activities included till sampling, airborne and ground geophysics as well as drilling. There was no infrastructure established on the property do to its proximity to Kugaaruk. Drill sites we reclaimed leaving no drill steel exposed above ground level and all waste material removed from the property.

GRA1217 relates to the Grail project 85km NW of the community of Taloyoak – Grail had no infrastructure established on or near the property as there was no drilling. Work included airborne and ground geophysics as well as till sampling. The land and water were untouched and left waste-free.

Thank you,

Penny.

Penny Johnson  
Corporate Secretary

[Caution: External Message]

Hi Penny

Regarding the cancellation application for the water licences, 2BE-BAR0712 and 2BE-GRA1217, can you please provide a brief summary of all activities related to the removal of waste, camp infrastructure, drilling wastes etc. Something for the written record that all waste has been dealt with.

Regards,

Derek
