Hi Derek.

As requested, please find the following attached for the cancellation of 2BE-BAR0712:

1. A) 2012 NWB Annual Report – 2BE-BAR0712
- B) 2008INAC_LUP_Annual_Report – which shows the 2008 ice-based drill sites
- C) N2005C0024_IME_FINAL PLAN – which has a great map and zoom of the 2007/8 drilling (and in the public domain)
- D) Barrow water useage.doc – which gives a good description of what is included in the Annual Report in A) above
- E) Barrow_drill_collars2007-8_LongLat

Please use Items B) – E) above as attachments to all of the Annual Reports included in this email.

2. 2013 NWB Annual Report – 2BE-BAR0712

3. 2014 NWB Annual Report – 2BE-BAR0712

4. 2015 NWB Annual Report – 2BE-BAR0712

5. 2016 NWB Annual Report – 2BE-BAR0712

6. 2017 NWB Annual Report – 2BE-BAR0712

7. 2018 NWB Annual Report – 2BE-BAR0712

8. 2019 NWB Annual Report – 2BE-BAR0712

Thank you,

Penny.

[Caution: External Message]

Hi Penny

To follow up, the NWB will require the submission of Annual Reports for all missing years, based off of the following Licence requirement: "*expiry or cancellation of a licence does not relieve the holder from any obligations imposed by the licence.*"

We will require the submission of Annual reports for all missing years, which is 2012 to 2019 for both Licences. I understand that there was minimal activity at both sites, so these reports can be brief. Just ensure to capture all water use, waste deposit (including any material or infrastructure deposit), and a summary of activities conducted.

You can find a standardized Annual report form here:

<ftp://ftp.nwb-oen.ca/other%20documents/Standardized%20Forms/111028%20REVISED%20Standard%20NWB%20Annual%20Reporting%20Form-FSTE.xls>
