Mr. McKinnon,

Thank you for your prompt reply and I apologize for not getting back to you sooner but I have been away from my desk the last week.

In addition to the 2014 Annual report (a nil report for no activity) that remains outstanding for the 2014 year a request to cancel the Water license needs to be made to the Board. Please contact the Nunavut Water Board for assistance on completing this requirement.

Given that the License has recently expired I would ask you to complete the assessment form to detail what if any equipment or fuel remains on site so that a proper risk assessment may be completed.

Thank you in advance for your cooperation.

Andrew,

With regards to your email, we have not conducted any exploration activity in Nunavut for all of 2013/2014 and we have no intention for the time being to recommence work until markets improve to raise funds to continue exploration activities.

On March 19th 2014, we submitted the attached Annual Report to Phyllis Beaulieu.

Please advise if you still require the assessment form to be competed or if you require anything further.

Regards,
Gord McKinnon

Mr. McKinnon,

The Field Operations Unit of Aboriginal Affairs and Northern Development Canada is currently engaged in conducting our annual Risk Prioritization Exercise in preparation for the 2015 field season. It has come to our attention that the above noted Water license for work conducted between 2011 and 2014 has expired and that an Annual Report from 2013 was not submitted to the Nunavut Water Board or the Inspector.

In addition to the enclosed assessment form to be completed and returned to our offices by March 31st 2015, I have included a copy of your Water License and the two associated amendments. I appreciate your cooperation as we move ahead with this file.

If you have any questions or concerns please do not hesitate to contact myself or the Manager of Licensing at the Nunavut Water Board, Phyllis Beaulieu Manager of Licensing Nunavut Water Board. Licensing@NWB-OEN.CA

Thank you in advance for your continued cooperation,

Respectfully,

Andrew Keim
