**Subject:** 2BE-BIP---- New Application for water license

The Nunavut Water Board acknowledges receipt of your application on May 23, 2008. Currently the file is undergoing an internal review for completeness, prior to sending out for review. As yet we have not received the hard copy, which I assume contains the cheques, and MSDS sheets. I note on your application form that the requested amount of water is 1003, this must be a typo and should read <100 m<sup>3</sup>/d. May I suggest that you indicate a specific amount of water required for the drilling that you will be undertaking.

Regards,

---
