

DRILL TARGETS

AnomID	X_NAD27	Y_NAD27	Magnetics	Dimensions (w x h)	Topo	Grade	Comments
PML_0001mvs	549674	7086850	-120nT	650x350	Land	2	mag low anomaly trending NW-SE
PML_0002mvs	553050	7088298	-100nT	1100x900	Land	3	large circular structural mag low anomaly; poor profile shape
PML_0003mvs	554109	7085885	-80nT	450x450	Land	2	circular mag anomaly within N-S mag low trend
PML_0004mvs	553344	7083360	-115nT	470x480	Land	2	structural mag anomaly; profile is better on West side
PML_0005mvs	554731	7083616	-180nT	1470x450	Land	3	very large NE-SW trending anomaly; appears to have two lobes; poor profile shape;
PML_0006mvs	556036	7077946	-45nT	418x215	Land	2	mag low trending NE-SW along regional mag low trend; anomaly may be dipolar
PML_0007mvs	556296	7074052	-120nT	475x540	Land	3	circular mag low at SW end of a weaker SW-NE structural trend; anomaly looks slightly lopsided in profile
PML_0008mvs	552367	7070820	-200nT	430x390	Land	3	circular mag low at SW end of a weaker SW-NE structural trend; anomaly looks slightly lopsided in profile
