Dear Phyllis,

As per my previous e-mail we would like to amend the above application such that a camp and uranium exploration activities are no longer be included.

Water use for this project will be for diamond drilling. In past the project has been based out of the community and there are no plans for a camp at this time.

As requested, I have attached the 3 page application form to reflect these changes.

If you require any additional information, please do not hesitate to contact me.

Thanks very much for your help.

Best regards,

Teresa Gillespie
