Subject: RE: Exploration and drilling activities in the Booth River Area

Ms. Beaulieu

We have prepared the following: Project Summary - English / Inuktitut
Application Form
Remote camp questionnaire
Location map - camp and possible drill
Locations.
Abandonment / restoration / spill plan
MSDS data
Copy of current land use permit
Mineral tenure

At this time do we also submit the assignment forms and witness
declarations.

Thanks

Doug Bryan

Thank you for your response to my email. The link to the documents you
require is as follows:

<http://ftp.nunavut.ca/nwb/NWB%20Administration/NWB%20GENERAL%20INFORMATION/>
The questionnaire to be filled out is the one for remote exploration and the
application form is there as well. Also we will require an administration
fee of \$30.00 as well as a water use fee of \$30.00, both in cheque form,
made payable to "Receiver General for Canada" (one cheque is fine). Other
information required will be maps of your area of operation, an executive
summary in both English and Inuktitut or Inuinagutun (depending on the area)
and if not already part of the application you will be submitting, we will
at some point need an abandonment and restoration plan and a spill
contingency plan. I look forward to working with you in processing your
application.

Regards,

Phyllis Beaulieu

Dear Ms. Beaulieu,

I am starting my application for a water license for our Booth River
Project. In Section 5 - Type of Undertaking - there is a note stating a

supplementary questionnaire must be submitted with the application. I can find no reference to the questionnaire elsewhere in the documentation. Can you please advise me on this?
Regards
Doug Bryan

Good afternoon Mr. Bryan. I've received notification that activities pertaining to exploration and drilling will be commencing, or have already commenced in the above mentioned area. Our office, the Nunavut Water Board, has not received an application for a Water License, which is required in order to begin this type of operation. Please advise as soon as possible if a water license application is forthcoming.
Thank you.
