WATER LICENCE APPLICATION FORM

Application for: (check one)

☒ **New** ☐ **Amendment** ☐ **Renewal** ☐ **Assignment**

LICENCE NO:
(for NWB use only)

1. **NAME AND MAILING ADDRESS OF APPLICANT/LICENSEE**
Allyn Resources Inc.
4804 Anderson Thomson Blvd.
Yellowknife, NT. X1A 1J5

Phone: 867 444 6842
Fax: 867 873 5211
e-mail: mpdb@theedge.ca

2. **ADDRESS OF CORPORATE OFFICE IN CANADA (if applicable)**

Phone: _____
Fax: _____
e-mail: _____

3. **LOCATION OF UNDERTAKING** (describe and attach a topographical map, indicating the main components of the Undertaking)

Allyn Resources Inc. will be conducting a mineral exploration program for copper and nickel on the BRS and NARM mineral claims. The project area is located 80 to 120 km west and southwest of Bathurst Inlet.

Latitude: 66°10 to 66°55 N Longitude :108°50' to 109°50'W NTS Map No. 76K/5,6,11,12,13,14
Scale _____

4. **DESCRIPTION OF UNDERTAKING** (attach plans and drawings)

Allyn Resources Inc. is planning regional geological mapping and prospecting programs, airborne and ground based geophysical programs and a diamond drilling program. All work will be helicopter supported. A temporary tent camp to accommodate up to 12 people is planned, The proposed camp would be located at UTM 7356500 N, 578500 E, NAD 27 within NTS map sheet 76 K / 6.

All materials for the planned work, including Jet A and diesel fuel will be mobilized to the site using fixed wing aircraft. All materials and equipment would be removed upon project completion. In 2005 it is anticipated some 1500 m to 2,000 m of diamond drilling may be completed.

5. TYPE OF PRIMARY UNDERTAKING (A supplementary questionnaire must be submitted with the application for undertakings listed in "bold")

- | | |
|---|--|
| <input type="checkbox"/> Industrial | <input type="checkbox"/> Agricultural |
| <input type="checkbox"/> Mining and Milling | <input type="checkbox"/> Conservation |
| <input type="checkbox"/> Municipal (includes camps/lodges) | <input type="checkbox"/> Recreational |
| <input type="checkbox"/> Power | <input checked="" type="checkbox"/> Miscellaneous (includes exploration/drilling) |

A geological, geophysical and diamond drilling program is planned for the portions of the BRS and NARM claims
See Schedule II of *Northwest Territories Waters Regulations* for Description of Undertakings

6. WATER USE

- | | |
|---|--|
| <input checked="" type="checkbox"/> To obtain water | <input type="checkbox"/> To divert a watercourse |
| <input type="checkbox"/> To modify the bed or bank of a watercourse | <input type="checkbox"/> Flood control |
| <input type="checkbox"/> To alter the flow of, or store, water | <input type="checkbox"/> Other (describe): _____ |
| <input type="checkbox"/> To cross a watercourse | |

7. QUANTITY OF WATER INVOLVED (cubic metres per day including both quantity to be used and quantity to be returned to source)

Water for camp use will be pumped from a lake to a supply tank at the camp. The estimated daily use is 2.2 cubic meters. Greywater from the camp will be discharged to a sump. Discharge is approximated at 2.0 cubic meters / day. Water for diamond drill use is estimated at 43. 2 cubic meters / 24 hour period. Drill water at drill cuttings are pumped to sumps. Sumps will be located away from any body of water.

8. WASTE (for each type of waste describe: composition, quantity (cubic metres per day), methods of treatment and disposal, etc.)

X Sewage Sewage from the 12 person camp is collected in plastic bags and incinerated daily. Ashes are collected and shipped to Yellowknife.

X Waste oil Minor quantities of waste oil are collected from the diesel generator, helicopter and diamond drill. This is estimated at 10 l / week. This is incinerated. Oil filters are collected and shipped to Yellowknife for proper disposal

X Solid Waste All solid wastes are collected, bagged and removed to Yellowknife.

X Greywater Greywater, estimated at a maximum of 1500 to 2000 l / day is fed to a sump. The sump is located away from any water source. The sump may be treated with chloride of lime as required.

X Hazardous There should be no hazardous waste. All used batteries, filters etc are properly stored prior to removal to Yellowknife.

X Bulky Items/Scrap Metal All 205 l metal fuel drums are regularly taken to Yellowknife on scheduled fixed wing service flights.

Other (describe): Upon project completion all materials would be removed from the site.

9. PERSONS OR PROPERTIES AFFECTED BY THIS UNDERTAKING (give name, mailing address and location; attach if necessary)

Land Use Permit N2004C0032 Class A permit . Issued September 9, 2004

DIAND _____ Yes _____ No If no, date expected _____

Regional Inuit Association ☐ Yes ☐ No If no, date expected _____Commissioner ☐ Yes ☐ No If no, date expected _____**10. PREDICTED ENVIRONMENTAL IMPACTS OF UNDERTAKING AND PROPOSED MITIGATION MEASURES** (direct, indirect, cumulative impacts, etc.)

The exploration program is of low environmental impact. All personnel are transported to work sites by helicopter. All drill equipment is moved by helicopter. The planned camp is a tent camp for 12 people. Tents are erected over wooden frames. All fuels and contaminants are stored as per Land Use Regulations. Waste materials, garbage and scrap are routinely removed on weekly service flights. All materials would be removed upon project completion.

NIRB Screening ☐ Yes ☐ No If no, date expected _____**11. INUIT WATER RIGHTS**

Will the project or activity substantially affect the quality, quantity, or flow of water flowing through Inuit Owned Lands and the rights of Inuit under Article 20 of the Nunavut Land Claims Agreement?

The planned exploration program will not have an impact on water flowing through Inuit Owned Land and will not affect the rights of Inuit under Article 20 of the Nunavut Land Claims Agreement.

11. (Continued)

If yes, has the applicant entered into an agreement with the Designated Inuit organization to pay compensation for any loss or damage that may be caused by the alteration. If no compensation agreement has been made, how will compensation be determined?

12. CONTRACTORS AND SUB-CONTRACTORS (name, address and functions)

Aurora Geosciences Ltd. 3502 Racine Road Yellowknife, NT X1A 1J5. Geological and Geophysical consultants,
Great Slave Helicopters Ltd. 103 Dickens St. Yellowknife, NT X1A 2R3 Helicopter Contractor
Diamond Drilling contractor has yet to be determined.

13. STUDIES UNDERTAKEN TO DATE (list and attach copies of studies, reports, research, etc.)

The planned program is in the initial exploration stage. No studies other than geological research have been completed.

14. THE FOLLOWING DOCUMENTS MUST BE INCLUDED WITH THE APPLICATION FOR THE REGULATORY PROCESS TO BEGINSupplementary Questionnaire (where applicable: see section 5) ☒ YesInuktitut/English Summary of Project ☒ YesApplication fee \$30.00 (Payee Receiver General for Canada) ☒ Yes

Water Use fee (see Section 9 of the *NWT Waters Regulations*; Payee Receiver General for Canada)☒ Yes**15. PROPOSED TIME SCHEDULE**☐ Annual (or) ☒ Multi Year **Dependant upon 2005 exploration results.**

Start Date: Approximate - MAY 15, 2005

Completion Date: Approximate Sept. 15, 2005
