5. a) Summary of operation (Describe purpose, nature and location of all activities.)

Refer to Section 22(2)(b) of the *Territorial Land Use Regulations* (Use last page of form if necessary.)

This application is for a coal exploration program. Exploration activities proposed for this project during the term of the water licence will include: prospecting, staking, geological mapping, rock and soil/till sampling, airborne geophysics, ground geophysics, establishment of a camp, establishment of fuel caches and drilling. The camp will not be established until 2010. A location for the camp will be selected during the 2009 field program.

b) Please indicate if a camp is to be set up (Use last page to provide details.)

A suitable camp site will be selected during the 2009 field program. During consultation meetings in the communities, the proposed camp locations will be discussed and a final location selected. The coordinates of this location will be submitted to INAC and the NWB following these discussions for review and approvals.

6. Summary of potential environmental and resource impacts

(Describe the effects of the proposed program on land, water, flora and fauna and related socio-economic areas.)
(Use separate pages if necessary.)

During all activities, every effort will be made to avoid disturbance to wildlife. Denning and nest sites will be avoided and the locations recorded and the information provided to the local wildlife officer and as an appendix in the annual reports required. All archaeological sites will be respected and reported immediately. There will be no discharge of any kind in to any water bodies. Sumps at camp and at the drill sites will be located a minimum of 31 m from the normal high water mark of any water body. See the attached Spill Contingency Plan, and Abandonment and Reclamation Plan for more information. See attached Plan.

APPLICATION FOR LAND USE PERMIT

7. Proposed restoration plans (Please use last page if required.)

All sumps will be covered as required. Empty fuel drums will be removed on a regular basis and at the end of the project all fuel drums will be removed from fuel caches. A final inspection of all sites occupied and or disturbed will be conducted. Please see attached Abandonment and Restoration Plan. All activities will be documented and photos will be taken to be included in annual reports.

8. Other rights, licences or permits related to this permit application (mineral claims, Yukon timber permits, water licences, etc.)

A conformity screening questionnaire has been submitted to NPC, PSIR forms completed and submitted to NIRB, a water licence application has been submitted to the NWB and a Land Use Licence III application submitted to the QIA.
