

December 13th, 2011

Mr. Jeff Mercer
Indian & Northern Affairs, Canada
Manager, Land Administrator

Dear Mr. Mercer:

Re: Your file N2009C0014

Please be advised Canada Coal Inc. has purchased and now controls all the coal licenses formerly held by Canadian Sovereign Coal. Accordingly, Westar no longer has any interest or authority relating to their still current application in the above noted file and that application may now be cancelled.

Please also be advised that Canada Coal Inc. is acutely aware that many or all of these licenses covered areas with sensitive environmental, archaeological and paleontological issues. Canada Coal has no intention of proceeding at this time to work on sensitive licensed areas.

Sincerely,

A handwritten signature in blue ink, appearing to read "R.B. Duncan", with a long, sweeping horizontal line extending to the right.

R. Bruce Duncan,
Executive Chairman
