Re: **Application for Water License Renewal NWB2BRO0405, Brodeur Project, Nunavut**

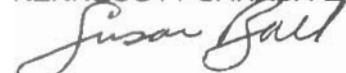

Please find attached an application for a water licence renewal for our exploration operations on the Brodeur Project, Nunavut. There have been no changes to our water requirements under this permit.

I have enclosed a renewal application, supplemental Questionnaire, project summary, location map, spill and reclamation plans and application plus water use fees totaling \$60.

Our project summary in Inuktituk will be included with the original documents to be sent via mail.

If you have any questions or require any further information, please let me know. I can provide digital copies of all documents if preferred.

Yours truly,  
KENNECOTT CANADA EXPLORATION INC.

Susan Ball  
Project Geologist: Land, Community and Business

cc. Ben Pezaro, Project Coordinator
