Re: 2BE-BRO, Diamondex Resources Ltd. - Brodeur Project – Amendment Application

Indian and Northern Affairs Canada (INAC) reviewed of the Diamondex Resources Limited Amendment Application for the Brodeur Project, submitted to the Nunavut Water Board (NWB). In conducting our review INAC has made reference to all documents on the Nunavut Water Board's FTP-site under 2BE-BRO.

INAC has reviewed the letter referring to the Water License Amendment Application 2BE-BRO0607, written by Diamondex Resources Limited Lands Manager, Janet Stritychuk. Diamondex is requesting an amendment to the volume of water currently allowed for drilling from 1 cubic metre per day to 40 cubic metres per day, Section 7 of the Water License Amendment Application form, and Section 27 of the Supplementary Questionnaire.

Providing existing terms and conditions in License 2BE-BRO0607, an increase in the volume of water currently allowed for drilling from 1 cubic metre per day to 40 cubic metres per day, is a relatively small increase. INAC comments that an increase in the volume of water allowed for drilling from 1 to 40 cubic metres per day should not be a problem. That said a Supplementary Questionnaire was not provided. INAC recommends that the proponent should provide an updated Supplementary Questionnaire for the Brodeur Project.

Should you have any questions or comments, please do not hesitate to contact me at (867) 975-4738 or by email at CullA@ainc-ianc.gc.ca.

Sincerely,
