Fax: 604-689-5041

Strongbow Exploration Inc. ("Strongbow") is requesting the official closure of Nunavut Water Board License 2BE-CAN0608. This license was a renewal of Nunavut Water Board License 2BE-CAN0406.

This license authorized water use and waste disposal activities for a camp facility and drilling operations that were proposed for the Canoe Lake project located approximately 140 km SE of Bathurst Inlet, within the Kitikmeot region of Nunavut.

The exploration work conducted under the authority of this license included mapping, soil and rock sampling, prospecting and ground truthing of historical results. This work was conducted out of a temporary fly camp which was operational for a seven day period during July of 2006. The camp consisted of five pup tents and a 14' x 16' Weatherhaven and over the course of the seven days was occupied by a total of five people. Water for camp/domestic purposes was drawn from Canoe Lake and measured less than 0.1 cubic meter per day.

All camp supplies and fuel drums were removed from the land use area at the end of the 2006 exploration program.

No drilling activities were conducted under the authority of this license.
