Please do.

I was also hoping that you could check one more thing for me while we're on the subject. North Arrow did a second cleanup last year at another old project that still has an open water license that we are trying to close (2BE-CAN0608). Like I did with SIL0709, I'd sent the cleanup report to the inspector who had visited the site (Eva Paul), but I wasn't sure if I'd sent a copy to the NWB, can you confirm this for me please. I am thinking that CAN0608 would have also been missed and not sent to the NWB, so I've attached a copy of the cleanup report just in case.

Thanks,

Mike
