Nunavut Water Board

Standard Form for Annual Reporting Requirements of NWB2 Mineral Exploration Water Licences

Introduction

Under the terms of water licences issued by the Nunavut Water Board ("NWB") for the use of water and the disposal of waste into water associated with mineral exploration (NWB2 licences), licensees are required to submit to the NWB an Annual Report no later than March 31st of the year following the calendar year reported.

In order to aid the licensee with the preparation of the Annual Report and facilitate its review and approval by the NWB, licensees are required to use the following form. Metric units should be used to report any relevant data. If additional space is required, please append one or more sheets to the Annual Report.

Annual Reports shall be submitted by either fax, mail or email (in Microsoft Word or Adobe Acrobat format) to:

ANNUAL REPORT

Date	January 31, 2005
Year being reported	2004
Licence number	NWB2CAN0406
Licensee	Strongbow Exploration Inc.
Mailing address	800-625 Howe Street Vancouver, BC V6C 2T6
Location of undertaking	76M/2 and 76M/3
Name of Undertaking (if applicable):	Canoe Lake

The Licensee **must** provide the following information:

i	<p>A summary report of water use and waste disposal activities, including, but not limited to: methods of obtaining water; sewage and greywater management; solid and hazardous waste management.</p> <p>Allyn Resources Inc. conducted a 10-day prospecting, geochemical sampling and ground geophysical program on IOL parcel CO-27. Strongbow Exploration conducted a 3-day prospecting and geochemical sampling program on IOL parcel CO-25. Both parcels are situated approximately 150 km southeast of Kugluktuk in Nunavut.</p> <p>The program for CO-25 was conducted on July 27 and July 28, 2004 and August 20, 2004 from Strongbow's Rush Lake camp located at 67° 23.45' N and 111° 04.83' W on IOL parcel CO-81 (see licenses KTL304C002 and NWB2ANI0406 for that camp). Project personnel consisted of four geologists and a helicopter pilot. The crew was based at the Rush Lake camp and water for domestic purposes was acquired from Rush Lake, which is located 40m south of the camp. Approximately 150L to 200L of water was consumed a day.</p> <p>The CO-27 program was undertaken from Sept 3rd to 13th, 2004 from an Allyn Resources' camp off the IOL property. Project personnel consisted of four geologists and a helicopter pilot. Water for domestic purposes was acquired from Allyn Resources' camp, and thus was not monitored. Crew was based at another camp off the property and not subject to this license.</p>
---	---

ii	<p data-bbox="354 205 1292 237">A list of unauthorized discharges and a summary of follow-up actions taken</p> <p data-bbox="354 268 922 300">There were no fuel spills during the program.</p>
iii	<p data-bbox="354 1062 1349 1094">Revisions to the Spill Contingency Plan and Abandonment and Restoration Plan</p> <p data-bbox="354 1125 1317 1230">The Spill Contingency Plan and the Abandonment and Restoration Plan have not been changed, however since the original application was submitted, two of the Material Safety Data Sheets that accompanied the plans have expired.</p> <p data-bbox="354 1272 1325 1335">Attached is a Material Safety Data Sheet for each of Diesel Fuel and Jet B Fuel dated June 2, 2004 and December 3, 2003 respectively.</p>

iv	Progressive reclamation work undertaken	
		<p>Please refer to the Anialik annual report (NWB2ANI0406) for a detailed description of the progressive reclamation work undertaken for the Rush Lake camp.</p> <p>This section is not applicable for the work performed on IOL parcel CO-27.</p>
v		Results of the Monitoring Program including:
	1	<p>A summary, in cubic metres, of the daily quantities of water utilized for domestic and industrial operations.</p> <p>CO-27: N/A. CO-25: Water for domestic purposes was acquired from Rush Lake approximately 40m south of the Rush Lake camp (67° 23.45' N and 111° 04.83' W). Domestic consumption varied from 200L per day for a maximum of 10-person occupancy at the camp.</p>
	2	<p>The GPS co-ordinates (in degrees, minutes and seconds of latitude and longitude) of all locations where sources of water are utilized.</p> <p>CO-27:N/A CO-25: Rush Lake, located 40m south of Rush Lake camp (67° 23.45' N and 111° 04.83' W).</p>

	3	The GPS co-ordinates (in degrees, minutes and seconds of latitude and longitude) of all locations where wastes associated with industrial operations are deposited.
		N/A.
	4	Any additional sampling and/or analysis that was requested by an Inspector.
		N/A
vi		Any other details on water use or waste disposal requested by the Board by November 1 of the year being reported
		N/A.

Vii	<p>Any responses or follow-up actions on inspection/compliance reports</p> <p>N/A</p>
viii	<p>Any additional information as appropriate</p> <p>ATTACHMENTS:</p> <p>I MSDS sheet for diesel fuel</p> <p>I MSDS sheet for Jet B fuel</p> <p>Location map</p>
