

Nunavut Water Board

Standard Form for Annual Reporting Requirements of NWB2 Exploration Water Licenses

Under the terms of your water licence issued by the Nunavut Water Board ("NWB") for the use of water and the disposal of waste into water associated with mineral exploration (NWB2 Licenses), Licensees are required to submit to the NWB an Annual Report no later than March 31st of the year following the calendar year being reported.

In order to aid the Licensee with the preparation of the Annual Report and facilitate its review by the NWB, Licensees are **required** to use the following form.

Recommendation and Helpful tips for use:

Metric units shall be used to report any relevant data.

How to Add additional space within Text boxes - Right click mouse on the row number (directly to the left of your screen) which falls within the text box range and click insert. **Do not drag or drop text box to modify size of the text box because formatting will not be maintained and data will be lost.** If you have large amounts of data recommend adding additional worksheets. Go to the help menu for assistance.

Electronic versions should be submitted in Adobe to ensure protection of your information. If you do not have shortcut keys to save as a PDF. Go to print menu . Choose to print "Entire Worksheet" then select printer option Adobe PDF and you will be prompted to save the document as a PDF document. Reminder ensure you have saved your document in Excel so that future changes can be made.

Modify the Header - Select "View" then "Header" from the main menu. Select "Custom Header" and change to reflect the valid Water Licence No.

Textboxes denoted with * are optional.

Annual Reports shall be submitted by either fax, mail or email in adobe acrobat or Excel format to:

NWB Annual Report

Year being reported: 2006

License No: 2BE-CAN0608

Issued Date: June 5, 2006

Expiry Date: September 30, 2008

Project Name: Canoe Lake

Licensee: Strongbow Exploration Inc.

Mailing Address: 800-625 Howe Street
Vancouver, BC
V6C 2T6

Name of Company filing Annual Report (if different from Name of Licensee please clarify relationship between the two entities, if applicable):

Strongbow Exploration Inc.

General Background Information on the Project (*optional):

Strongbow Exploration Inc. operated a small (4-5 person) fly camp under the authority of this license between July 23rd and July 29th, 2006. Five pup tents were erected for sleeping and one 14' by 16' Weatherhaven tent was erected to serve as both a kitchen and office space. Personnel during the course of the program consisted of 2-3 geologists and 2 assistant geologists who conducted mapping, soil sampling, prospecting and ground truthing activities over a period of 5 days.

Licence Requirements: the licensee must provide the following information in accordance with

Part B

Item 2

A summary report of water use and waste disposal activities, including, but not limited to: methods of obtaining water; sewage and greywater management; drill waste management; solid and hazardous waste management.

Water Source(s):	67° 27' 56.03", -111° 07' 56.03" (WGS84)	
Water Quantity:	25 cu.m/day (including drilling)	Quantity Allowable Domestic (cu.m)
	less than 0.1 cu.m/day	Actual Quantity Used Domestic (cu.m)
	25 cu.m/day (including domestic use)	Quantity Allowable Drilling (cu.m)
	N/A	Total Quantity Used Drilling (cu.m)

Waste Management and/or Disposal

☒ Solid Waste Disposal☒ Sewage☐ Drill Waste☒ Greywater☐ Hazardous☒ Other:

□ Spill:

Additional Details:

All combustible waste was incinerated daily in a burn barrel constructed/modified for this purpose. Non combustible waste was backhauled to Yellowknife at the end of the 6 day program.
The small amount of greywater that was produced during the course of the program was deposited in a natural depression located immediately adjacent to (east of) the camp area and more than 30 metres above the high water mark. Any human waste produced during the land use area was immediately buried in small pits.

A list of unauthorized discharges and a summary of follow-up actions taken.

Spill No.: (as reported to the Spill Hot-line)

Date of Spill:

Date of Notification to an Inspector:

Additional Details: (impacts to water, mitigation measures, short/long term monitoring, etc)

No unauthorized discharges occurred under the authority of this license during the 2006 exploration season.

Revisions to the Spill Contingency Plan

SCP submitted and approved - no revision required or proposed ▼

Additional Details:

No revisions have been made to the Spill Contingency Plan during 2006.

Revisions to the Abandonment and Restoration Plan

AR plan submitted and approved - no revision required or proposed ▼

Additional Details:

No revisions have been made to the Abandonment and Restoration Plan during 2006.

Progressive Reclamation Work Undertaken

Additional Details (i.e., work completed and future works proposed)

Due to the small scope of the camp facilities and the short time for which it was occupied (a total of six days) the restoration work required upon abandonment of the land use area was minimal. The small amount of greywater that was produced during the course of the program was deposited in a natural depression located immediately adjacent to (east of) the camp area and more than 30 metres above the high water mark, and any human waste produced during the land use operation was immediately buried in small pits.
All camping supplies and non-combustible garbage was removed from the area upon demobilization of the camp, leaving little to no evidence of the land use operation.

Results of the Monitoring Program including:

The GPS Co-ordinates (in degrees, minutes and seconds of latitude and longitude) of each location where sources of water are utilized;

Details described below ▼

Additional Details:

Water for domestic purposes was drawn from Canoe Lake, immediately in front of the area where the fly camp was constructed. The coordinates for this area are 67° 27' 56.03", -111° 07' 56.03" (WGS84). Total water use for domestic purposes over the six day period ranged from anywhere from 20 to 90 litres per day.

The GPS Co-ordinates (in degrees, minutes and seconds of latitude and longitude) of each location where wastes associated with the licence are deposited;

Details described below ▼

Additional Details:

A natural depression in the land located immediately adjacent to (east of) the camp area and more than 30 metres above the high water mark was used as a deposit area for grey water.

Results of any additional sampling and/or analysis that was requested by an Inspector

No additional sampling requested by an Inspector or the Board ▼

Additional Details: (date of request, analysis of results, data attached, etc)

N/A

Any other details on water use or waste disposal requested by the Board by November 1 of the year being reported.

No additional sampling requested by an Inspector or the Board ▼

Additional Details: (Attached or provided below)

N/A

Any responses or follow-up actions on inspection/compliance reports

Select ▼

Additional Details: (Dates of Report, Follow-up by the Licensee)

N/A

Any additional comments or information for the Board to consider

N/A
