---

Hi Joseph,

As the proponent has indicated that this project will require a Class III KIA Land Use permit (which requires NIRB screening), please be advised that all authorizations associated with the proposed project are no longer exempt from screening by the NIRB pursuant to NLCA Schedule 12-1(2).

Once the NIRB receives a referral for screening from KIA in response to the attached email, the Board will commence screening this project proposal. At the conclusion of NIRB's screening, the Board will report its recommendations to KIA, INAC and NWB - no approvals associated with this proposal are to be issued prior to the authorizing agencies receiving the Board's report, pursuant to NLCA Section 12.10.1.

If you have any questions or require clarification, please contact me directly at (867) 983-4608.

Best regards,

Ryan Barry
