Hello Phyllis,

The NIRB has received two applications for this project (NWB and INAC). Both have been applications for Class B permits and these are exempt from screening under section 12-1 (2) of the NLCA. Therefore the NIRB has not screened this project. If the NIRB receives either a specific request for a screening or an application for a Class A license, the NIRB will screen this project.

Best regards,

The attached NWB letter was forwarded to NIRB as indicated on March 8, 2010. NPC advised as per the attached that a conformity was not required. Please advise when the NWB may expect a screening decision.
