Re: 2BE-CGR1012 – Cancellation Application – Coronation Gulf Region Project – Stornoway Diamond Corporation.

Background

The Coronation Gulf Region Project was proposed to be located on the Southern Shore of an unnamed lake approximately 200km to the Southeast of Kugluktuk.

The site was proposed to accommodate 2-4 people in small temporary tents for approximately 2 weeks (June to September) each year.

The temporary camp was never created or used and as per this application the proponent is requesting water license 2BE-CGR1012 to be cancelled.

Recommendations/Comments

The Department of Aboriginal Affairs and Northern Development Canada, Water Resources Division finds the cancellation application complete and recommends that the above referenced license not be cancelled/ closed until a Water Resource Officer provides confirmation that no compliance issues are associated and/or remain outstanding with the project.
