**Subject:** FW: Query-NIRB Screening of Q09L1C11 Amendment

Salamonie,

Thank you for response. The NIRB is forwarding this response to the NWB along with a 12-1(2) Exempt from screening response. The NIRB did not screen the original application as it is a Class B water license, and does not screen amendments to the same license.

The NWB may continue to process the application without a screening decision from the NIRB.

Thank you for your time and hope you have a great long weekend!

Best regards,

Tara Arko – Assistant Technical Advisor

**Subject:** RE: Query-NIRB Screening of Q09L1C11 Amendment

Hi Tara,

Our department is still reviewing the amendment request. Given the minor change in the project, it is not our intention to request a screening from NIRB. However, we will still engage our Community Lands and Resource Committee in Pangnirtung in the review of this file.

Regards,

Salamonie

**Subject:** FW: Query-NIRB Screening of Q09L1C11 Amendment

Dear Salamonie,

On May 17, 2010 the NIRB received a request from the Nunavut Water Board (NWB) to review an amendment to Peregrine Diamonds Ltd. "Chidliak Project" Class B water license as they wished to add 1-2 drill holes to their project activities on IOL land. As this application and amendment pertain to a Class B water license, the NIRB did not screen this original application and is not required to screen any amendments to the same license under section 12-1 (2) of the Nunavut Land Claims Agreement "Land use activities requiring only a Class B permit under the *Territorial Land Use Regulations*" are exempt from screening.

As this activity is associated with a Qikiqtani Inuit Association (QIA) application, the NIRB is requesting confirmation from the QIA whether you intend to requesting a screening of this application or not. If you are requesting a screening, please forward the application for amendment Q09L1C11. If you are not intending to request a NIRB screening for the amendment please let the NIRB office know as soon as possible.

If the QIA does not request a screening for this amendment, then this application falls under section 12-1 (2) of the NLCA and the NWB does not require a NIRB screening decision to process this application.

Best regards,

Tara Arko – Assistant Technical Advisor

**Subject:** Query-NIRB Screening of Q09L1C11 Amendment

*NOT FOR PUBLIC REGISTRY*

Greetings, Salamonie,

Nunavut Water Board (NWB) licensing office is requesting a NIRB decision before they will process amendment of Peregrine water licence #2BE-CHI0813 to allow drilling of the 1-2 holes in PA-28; the drilling is being requested through an amendment to #Q09L1C11. Peregrine has submitted all documentation to QIA for this amendment, as requested. Is Peregrine required to send another set of all the documentation to NIRB, or are the completed NIRB forms directed to NIRB from your office?

Best regards, and thanks in advance for your reply.
