Ms. Jaida Ohokannoak, Manager – Technical Administration
Nunavut Impact Review Board
29 Mitik Street
PO Box 1360
Cambridge Bay, NU X0B 0C0

Dear Ms. Ohokannoak:

Re: Annual Report 2017 – Chidliak Project – NIRB Files 11EA050

Please consider this the annual report to the Nunavut Impact Review Board (“NIRB”) for the Chidliak Project for 2017, NIRB file #11EA050. The 2017 field program at the Chidliak project consisted of one field program during the summer of 2017. Annual reporting categories are listed below (A through J).

In addition to the details below are the following three attachments

- 1) May 1, 2018, letter to INAC detailing 2018 activities
- 2) Table of Wildlife sightings
- 3) Catalogue of community consultations

- | | | |
|----|------------------------------|---|
| a) | Summary of Activities | Please see attached May 1, 2018 letter to INAC summarizing 2018 activities |
| b) | Work Plan for 2018 | Potential core drilling and environmental baseline work. Activities are at the planning stage and subject to change. |
| c) | Wildlife Encounters | A table of wildlife sightings is attached. |
| d) | Observed Local Users | No local users were observed in 2017 in the project area. Activities within the project area have been concentrated to the interior of Hall Peninsula and away from high use areas by local land users. |
| e) | Local Hiring | 329 person days for northern hires. Positions included Camp Maintenance Attendant and Cooks Assistant. Northern personnel were hired by Peregrine. |

- f) **Consultations** A catalogue of community consultations undertaken up to present is attached. Consultation efforts have helped Peregrine understand local traditional land use and the seasonal cycle in which these activities take place and communicate project details to local communities. Peregrine has also made efforts to communicate the Government of Nunavut's Mineral Exploration and Mining Strategy. Since 2013 Peregrine's work is concentrated to the interior of Hall Peninsula and away from high use areas by local land users. Most local interest in the project continues to be with employment opportunities. Peregrine will continue its consultation efforts.
- g) **Wildlife Monitoring** Wildlife observations are recorded in field logs and compiled at the end of the season. Wildlife logs are introduced to project personnel every field season as part of the camp safety induction. Most wildlife observations are birds and small rodents. In 2017 there was a large increase in lemming sightings.
- h) **Wildlife Mitigation** Peregrine has observed low densities of wildlife in the interior of the Hall Peninsula where project activities take place. Since 2013 activities are confined to a much smaller geographical area as work is focused in an area around kimberlites CH-6 and CH-7. This area is commonly referred to by Peregrine personnel as the *priority work area*. Ecological mapping conducted in 2014 and 2016 concludes that the majority of the priority work area is bedrock and block-field with limited vegetation.
- i) **Project Specific Terms** Project specific terms are compiled and presented to the Camp Manager and Project Manager at the beginning of every field season. A summary of these details are presented to all employees (Peregrine and Contractor) as part of the camp safety induction. Managers are responsible for the day to day oversight of terms and conditions. Peregrine strives for good work practices and a safe work site. The terms and conditions of the permit area consistent with good work practises. Peregrine believes that its field activities area consistent with the terms and conditions. Peregrine would like to encourage more frequent field inspections by land use authorities to audit our activities.
- j) **Wildlife Report** A table of wildlife sightings is attached.

If you have any questions on these items or require additional information please do not hesitate to contact me at (604) 608-4524.

Yours truly,

PEREGRINE DIAMONDS LTD.

Dear Ms. Pugh & Mr. Mesher

RE: CHIDLIAK PROJECT – N2012C0024 REPORT FOR CALENDAR YEAR 2017

Peregrine Diamonds Ltd. (“Peregrine”) holds INAC class “A” land use permit N2012C0024. This permit authorizes land use activities at Peregrine’s Chidliak Project located 130 kilometres northwest of Iqaluit on 250K NTS maps 25O, 25P, 26A and 26B. The permit was issued June 17th, 2013 and expires on June 16th, 2018.

The following sections detail activities that took place under permit N2012C0024 during the calendar year 2017. All activities took place on Crown Lands within the confines of 1:50,000 scale National Topographic Maps 26B01, 26B02, 26B07 and 26B08.

Winter 2017

No winter program was conducted in 2017.

Summer 2017

Peregrine conducted one field program in 2017. The program commenced on June 28, 2017 and was completed on September 16, 2017. All field activities were based out of the Discovery Camp. Field activities consisted of core drilling at the CH-6 kimberlite. A total of 15 drill holes were completed for an aggregate total of 5,299 meters. Table 1 lists pertinent coordinates for 2017 field activities.

Table 1: Coordinates for 2017 field activities

#	Location	Longitude (x) (WGS84)	Latitude (y) (WGS84)	50K NTS	Description
1.	Discovery Camp	-66° 20' 45.44”	64° 14' 25.45”	26B01	Camp
3.	CH-6 Kimberlite	-66° 31' 46.92”	64° 19' 19.2”	26B07	Kimberlite

Spills

There were a total of eight fuel spills during the field program ranging from 0.5 litres to 200 litres. All spills were cleaned upon discovery and waste incinerated or taken to certified waste handler Nunatta Environmental Services (NUR-300002) in Iqaluit. Two of the spills were reportable and assigned reference numbers by the NWT/NU Spill Response Line. Spills for 2017 are listed in table 2.

Table 2: Spills in 2017

Fid.	Date	Location	Type	Volume (litres)	Spill Source	Reportable
1	July 22, 2017	CH-6	Diesel	5	Water Pump	No
2	Aug. 7, 2017	CH-6	Stove Oil	20	Stove Drum	No
3	Aug. 9, 2017	CH-6	Hydraulic Fluid	<200	Hydraulic Hose – Core Drill	#2017-291
4	Aug. 12, 2017	CH-6	Antifreeze	5	Radiator Hose	No
5	Aug. 25, 2017	Discovery Airstrip	Jet-A	4	Twin Otter	No
6	Aug. 27, 2017	Discovery Airstrip	Jet-A	3	Twin Otter	No
7	Aug. 29, 2017	Drill Water Pump	Diesel	200	Pump Heater Fuel Supply	#2017-320
8	Sept. 11, 2017	Discovery Airstrip	Jet-A	0.5	Twin Otter	No

Spill #2017-320 requires additional monitoring in 2018.

Inspections

Four inspections were conducted by Government of Canada personnel in 2017. Inspection dates are listed below in table 3.

Table 3: Land Use Inspections

Fid.	Date	Organization	Inspector
1.	Aug. 14, 2017	ECCC	Joseph Monteith
2.	Aug. 22, 2017	INAC	Justin Hack
3.	Sept. 5, 2017	ECCC	Jonathan Mesher
4.	Sept. 5, 2017	INAC	David MacDonald
