

PIONJAR (made in Sweden)

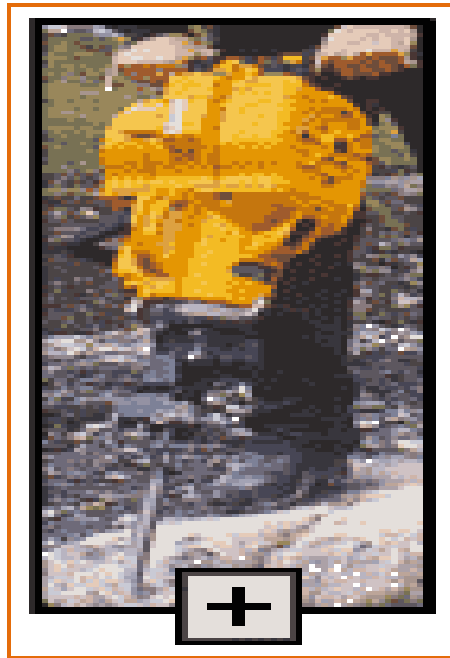

\$6,500.00-Please Call to Confirm Prices.

Pionjar Versatile, easy to use, and well made, the Pionjar motor drill/breaker makes tie tamping, drilling, anchoring, concrete cutting, post-driving, and splitting large boulders look easy. This very robust and powerful tool is Sweden's version of the Swiss army knife. Because the Pionjar only weighs 59 lbs it can go anywhere and do almost anything. With out the need to tow a compressor or battle air or hydraulic hoses you will find more uses for this self-contained unit then you could ever imagine. D & D has both new and used units in stock. -----

----- The Pionjar has an enviable record for delivering low-cost, high performance breaking and drilling solutions. This gas tool easily breaks up asphalt and concrete and can even restore the working surface by compacting sand, rubble and stone after digging and breaking. The Pionjar is ideal for tie tamping, drilling, anchoring, concrete cutting, post-driving, splitting large boulders and more. Easy to transport in its protective wooden case, the Pionjar is quick to set up on location. All of the controls are together for easy operation. Ignition is simple with just a quick pull to the start cord. Users also appreciate the Pionjar's soft grip handles for extra comfort and its service friendly reputation. Breaking, cutting and drilling capabilities Gas driven - no need for cables, power packs, hoses, or compressors Easy to use, maintain and service Cuts capital, running, transport and storage costs Powered by a single-cylinder air-cooled two-stroke engine Drills at a rate of 10-12 in./min. with a 1.3 in. bit Weighs 57 lbs., making it easy to transport.
