I, Nicole Westcott on behalf of Stornoway Diamond Corporation (name of applicant), certify that the information I have given in this application is true and correct and hereby make the above undertakings which form part of my application for a project proposal within the meaning of the Nunavut Land Claims Agreement.

Date: August 30, 2005 Signature of Applicant: Per: [Signature] Stornoway Diamond Corporation

KRLUP**Appendix 2
Code of Good Conduct for Land Users**

1. The landscape of each camp, and other land use sites, will be restored to its original condition to the greatest degree possible. Water quality will be preserved, and no substances that will impair water quality will be dumped in water bodies. When possible, and feasible, old sites will be restored to their natural state.
2. All land users shall assist communities and government(s) in identifying and protecting archaeological sites and carving-stone sites.
3. As a general rule, low-level flights by private aircraft at less than 300 metres should not occur where they will disturb wildlife or people. Where possible, scheduled low-level flights will only take place after consultation with the appropriate communities. All land users are responsible for reporting to the appropriate authorities any illegal or questionable low-level flights.
4. All activities on the land will be conducted in such a fashion that the renewable resources of the area in question are conserved.
5. Whenever practicable, and consistent with sound procurement management, non-resident land users will follow the practice of local purchase of supplies and services.
6. Non-resident land users will establish working relationships with local communities and respect the traditional users of the land.
7. During the caribou calving, post-calving, and migrating season, land use activities should be restricted to avoid disturbing caribou, in general, and more specifically will be governed by caribou protection measures.
8. Artifacts must be left where they are found. All land users are responsible for reporting to the appropriate authorities the location of, or any removal or disturbance of, artifacts.
