The preliminary technical review conducted for the above-mentioned file determined that the following items must be addressed or documents submitted before the application could proceed to the next stage of the licensing process:

- A copy of the NPC's and/or NIRB's decision(s) for the renewal application. The NPC's and the NIRB's decisions provided for with the application are for the previous licence and/or amendment issued to the project, which may not necessarily apply to the renewal application currently considered by the NWB.
- A copy of an updated Spill Contingency Plan developed for the project; and
- A copy for an updated Abandonment and Restoration Plan developed for the project
