To: Licensing Department <licensing@nwb-oen.ca>

Hi Valerie.

Please include this information within the annual reporting even these are projected for 2016 activities. I also replied to Licensee that i am forwarding to you that could be included within General folder.

Regards,

Karén Kharatyan, Ph. D- ԵՂՁ ԵՏՈՂՁ

Subject: Drill hole location change request - Tundra Copper - Coppermine Project

To: "karen.kharatyan@nwb-oen.ca" <karen.kharatyan@nwb-oen.ca>

Hi Karen.

I hope all is well with you. We are contemplating another field season at the Coppermine Project. Since we did not drill all of the holes which were permitted last year, we have requested to move some of the collar locations of the remaining permitted holes, to follow up on last season's most promising drill results.

This request was made to the AANDC, which they have approved (see approval attached). We would like to make the same request to the NWB. I have attached a letter outlining the details of the request. You will see that the water consumption at the drill and camp, remains the same as our current permit allows.

Best Regards,
Zach

Hi Zach,

I am doing well, thanks.

If your new projected drill locations are within the project boundary included in the licence, and the water use and waste disposal conditions are fully followed, you do not need a formal approval from the NWB to change your drill locations.

You will be required to include this locations within the next Annual Reporting as water sources and waste disposal locations could be associated with the drill locations.

I hope this helps.
