Revised Amendment Application, Water License 2BE-COP1416

Due to the addition of a core cutting saw to the camp for cutting of drill core, we would like to increase the amount of water used at the camp for domestic purposes. Attached is an updated Amendment Application that changes the amount of domestic water usage applied for from 0.5 cubic meters per day to 2.5 cubic meters per day. The amount required for drilling purposes is unchanged.

Sincerely,

A handwritten signature in black ink, appearing to read "N. Luckman". The signature is fluid and cursive, with a large initial "N" and a long, sweeping underline.

Nigel Luckman
