Hi Chris,

Before the Board could issue a decision regarding the renewal application filed, it requires your response to relevant comments contained in INAC's November 7, 2016 review comments for the application.

If you are able to provide your response as soon as possible, the NWB will be able to remit your file to the Board for its decision.

Regards,

Sean

Hi Sean,

My apologies for not getting back to you.

We had submitted a report to INAC, but had not received any response or confirmation of receipt. After following up we found that it had not gone through due to the file size. As a result the file was re-sent and we are currently awaiting a response from INAC.

Do you require the report be sent before the response/observations are received?

Many thanks,

Chris

Hi Chris,

As a follow-up to the NWB's November 17, 2016 correspondence.

Could you please confirm whether or not a copy of Kaizen Discovery Inc.'s response to INAC's comments has provided to the NWB for review.

Regards,

Sean
