RE: INAC File N2015C0009 - Notice to move eight (8) drill-collars within the Tundra Copper Corp. Coppermine Project approved permit area.

Dear Zach Flood,

This letter is to acknowledge receipt of the letter from Tundra Copper Corp. (a Kaizen Discovery Company) sent to our office on January 8th, 2016, requesting approval to move eight (8) drill-collars, authorized under Land Use Permit N2015C0009. Our understanding is that the reasoning of the proposed move of the drill-collars is to focus your exploration efforts in the prospective zone identified in 2015, while ensuring the scope of your previously authorized activities remain the same.

This letter is to inform Tundra Copper Corp. that INAC accepts the letter and supports the approval of the above activity. In doing so, we remind Tundra Copper Corp. to notify the Engineer and the Inspector in your area at least 10 days in advance of the start your drilling program in the new designated area. Also, please note that all of the terms and conditions associated to Land Use Permit N2015C0009 still apply.

Should you have any questions or require further information, please do not hesitate to contact our office.

Sincerely,

Lee Ann Pugh
Land Administrator
