Dear Tannis,

We have recently submitted a new NPC Project Proposal, and applied for a Class A CIRNAC LUP for expanded exploration activities. I am writing to request an amendment to our current KTL325C002 land use permit, to include a small temporary camp on IOL parcel CO-58, and additional drillholes. I have amended the IOL permit application to reflect these changes. The estimate I have included is a potential upper limit for water use and person-days per year, but we expect the actual usage to be significantly less than this.

We look forward to working with you on this proposal and hearing your feedback.

Sincerely,

A handwritten signature in black ink, appearing to read "Alex Vilela". The signature is fluid and cursive.
