**Re: Committee Bay Resources Ltd. (Crater Lake Project) 2BE-CRA Water Licence renewal application**

KIA would like to thank the Nunavut Water Board for the opportunity to provide comments on the Water Licence renewal application documents submitted by Committee Bay Resources Ltd.

KIA would like to submit the following comments to the Board:

- Activities associated with the Crater Lake Project should be in compliance with the Water Licence Application and accompanying documents, as well as the KIA terms and conditions of existing Inuit Owned Land Use Licence; and
- Committee Bay should clarify in their Environmental Procedure Plan for Exploration and Remote Camps and their Supplementary Questionnaire what their sewage management methods are, as the methods described in each document differ from the other.

Please contact us if you have any questions.

Sincerely,

Kevin Tweedle  
Environmental Technician
