Hi Simeon,

Thank you for this document and the prompt response from NCG with respect to the action items identified in the 2014 inspection report. By way of this e-mail I acknowledge and approve your request to amend the deadlines as follows:

- Item 1 - Hazardous waste to be moved from present location and placed in secondary containment within the quonset - may be carried out by **September 10th**.
- The work required for items 3,5,6, and 7 by August 15th may be extended to **August 31st**.
- The report required by item 8 may be extended to **September 30th**, and will also include a description (*including type and quantity of waste*) and photographs of the fulfilment of Item 1.

I cannot, however, waive the requirement to backhaul hazardous waste. This condition forms part of the licence, and NCG is now in the second year of contravention. This item may be deferred until an agreed-upon date this coming winter, however, it is to be undertaken prior to the expiry of the licence.

- NCG is to determine a date, prior to the expiry date of the existing licence, by which all hazardous waste will be removed from site and a report with records of backhaul submitted to the Inspector.

Regards,

Eva Paul

Hi Eva,

Please find attached to this email a letter detailing NCG's proposed work plan to address the deficiencies and respectfully request minor amendments to timeframes noted in your inspection report of the Committee Bay Project.

Please do not hesitate to contact me if you have any questions. I look forward to hearing from you.

Regards, Simeon
