Subject: License NWB2CRA0305; 2003 Annual Report

Dear Ms. Price:

The Nunavut Water Board ("NWB") has had the opportunity to review the 2003 Annual Report submission under Water License NWB2CRA0305 submitted by letter dated October 9, 2003.

The application underwent a preliminary review and subsequent distribution for comments to interested parties on November 5, 2003. There were no major concerns identified within the report. Two minor items were noted and are as follows:

- 1) Part B, Item 1(iv); Progressive reclamation undertaken. The final paragraph of the Report mentions the garbage and fuel being removed from the drill site however there is no mention in the Report about reclamation work at disturbed areas. This should be included as part of the annual report.
- 2) Part B, Item 1(v); as the report was submitted prior to November 1 of the year being reported, it is not possible to comply with this term as stated. For future reporting, the November 1 date should be observed as the earliest submission date for the year being reported to allow the NWB the opportunity to request additional information.

The NWB would like to thank Committee Bay Resources Ltd. for their submission and should there be any questions regarding the above, please contact me at your earliest convenience.

Yours truly,
