Dear AANDC, NWB and Kitikmeot Inuit Association,

North Country Gold (NCG) intends to commence a field program at the Committee Bay Project commencing on Saturday 4th April, 2015. The spring program will entail opening of Hayes Camp, construction of a permitted ice runway at Sandspit Lake, and the mobilization of supplies and demobilization of waste materials.

The spring program is expected to occur over 3 to 6 weeks. NCG also anticipates completing a summer exploration program at the Committee Bay Project. The details of this program will be distributed once the scope and details have been finalized.

Please contact me if you have any questions or concerns.

Regards, Simeon

Description: ncg

Simeon Robinson, B.Sc., P.Geo.
