Subject: Review of revised Spill Contingency Plan

Dear Ms. Price,

The Nunavut Water Board (NWB) approved North Country Gold Corp.'s Spill Contingency Plan (SCP) with the water licence renewal issues on April 1, 2010. The SCP was approved on the condition that an addendum be provided within thirty (30) days of licence issuance to address the comments submitted by interested parties during its review.

The NWB received a revised SCP on June 2, 2010. The NWB has undertaken an internal review of the document and finds that it meets the required updates outlined in the Licence. However, please note that the contact information for the Manager of Field Operations at Indian and Northern Affairs Canada appears to only list a fax number.

The revised SCP has been posted to the NWB's ftp site. Should you have any questions please contact the NWB office.

Yours truly,
