Hello Simeon.

I missed to inform you today morning about the last regulatory changes in the Territory. Under the Nunavut Land Claims Agreement (NLCA), S. 11.5.9 and S. 76 (1) of *Nunavut Planning and Project Assessment Act* (NuPPAA), the proponent of a project governed by NuPPAA is required to submit a project proposal document (which may include the water licence application) directly to the Nunavut Planning Commission (NPC) for the NPC's determination regarding the applicable land use planning requirements and/or directions regarding whether the project is subject to screening by the Nunavut Impact Review Board (NIRB). In particular, as established under Articles 11, 12 and 13 of the NLCA, NuPPAA and Part 3 of the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*, until the project has completed the applicable land use planning and assessment process required by the NPC and the NIRB, the NWB cannot issue a water licence.

You have to consult with the NPC regarding the applicable land use planning and assessment requirements for the project and submit the required documentation to the NPC directly. While the NWB awaits the NPC's determination and/or directions indicating that the project may proceed to the licensing stage, the NWB may commence an administrative check for completeness and a preliminary internal technical review. If the NWB identifies deficiencies in your application, you may be notified of any additional information requirements. However, the NWB's official processing of the application will commence following issuance and receipt of the relevant decision(s) from the NPC and/or NIRB.

Given the very limited scope of the Amendment proposed the NPC/NIRB process will likely not take an extensive time.

I hope this makes sense,
Regards,
