**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

Hi Richard,

It appears that the proponent, True North Gems, will only be conducting mineral prospecting and geological work for 2008. These activities are most likely exempt from screening under Schedule 12-1 (item # 2 and/or # 6), and will not require a screening by the NIRB unless the activities change and will require more than a Class B permit. If you have any additional questions please let me know.

Regards,

*Sophia Granchinho, MSc. CEPIT*

Hi Richard,

As indicated in Leslie's email below, the NIRB is not taking any action on this file at this point as we have not been triggered by anyone or by any authorization unless the water board requests that the NIRB screen this file. I do not have a copy of this file to make this determination. Leslie is currently at our Board meeting in Yellowknife and I do not have access to her computer to look at the file. Would you be able to forward this file to me?

Regards,

*Sophia Granchinho, MSc. CEPIT*

Hi Sophia;

I'd like a yes or no answer on whether or not this file will be screened by NIRB.

Thanks,

Richard Dwyer

Hi Phyllis,

We do not have anything active or pending on this file. Background: TNG called me to say that Twila Skinner was gone and this new guy was trying to see where he was at in the regulatory process. He emailed me new 2008 CGS applications and thought they were to go to INAC??? INAC said they don't need/have anything, CGS said they have never seen them. Richard and I determined that all that said – this one 2BE-CRO is another file altogether (I think) – regardless we aren't taking any action on it at this point as we have not been triggered by anyone or anything. Clear as mud?

Leslie

**Importance:** High

Good afternoon Leslie – I'm following up on a few of Richard's files while he's away on leave. Could you please advise status of the above for NIRB screening – I don't see anything on your site pertaining to this file. Any information you need from our

files, please don't hesitate to contact me.

Regards,

Phyllis Beaulieu
