**RE: APPLICATION FOR WATER LICENCE, INDICATOR MINERALS INC. DARBY  
PROJECT (NWB2DBY), KITIKMEOT REGION, NUNAVUT**

Dear Mr. Murdock

Please find below responses to your email enquiry regarding Indicator Minerals Inc, Water license application supplemental questionnaire for the Darby project. (NWB2DBY). Please contact me at (250) 491-1038 or Johanna Tuck at (250) 344-2345 should there be any additional questions, comments or further requested information.

a) Similar programs will be conducted in years 2006 – 2009 as detailed for 2005.

b) Question 7

A planned crew of 10 persons for 30 days (300 man days) with 1 drill operating.

c) Diamond Exploration

d) Camp Water Use

Drilling Units:

Accounting for recirculation of water and hours of active drilling per day, a max of 30m<sup>3</sup> per day will be used, per drill. We estimate 25 drill days in the 2005 exploration season.

!

Domestic Use :

1-2 m<sup>3</sup> per day for a 10 person camp/day

e) See Appendix C (EPP - sec 1.1, pg 13-14)

f) The questions below relate to the initial Darby water license application supplemental questionnaire submitted. As requested the specific sections and page numbers direct the reader to the pertinent information.

**Question 7**

A planned crew of 10 persons for 30 days (300 man days) with 1 drill operating.
