RE: Licence No. 2BE-DUB0812: Submission of 2011 Annual Report by Uranium North Resources Corp. for the Dubawnt Lake Project

Dear Mr. Gill:

The Nunavut Water Board (“NWB” “Board”) received, on November 24, 2011, from Uranium North Resources Corp., the 2011 Annual Report submission aimed at satisfying the relevant requirements under the terms and conditions in Licence 2BE-DUB0812, issued to the Dubawnt Lake Project, located 300 kilometres southwest of Baker Lake within the Kivalliq Region of Nunavut. Following receipt, the NWB provided public access to the submission, for information purposes, through its FTP site, which can be accessed using the following link (user Name: “**public**”; password: “**registry**”):

<ftp://nunavutwaterboard.org/1%20PRUC/2%20MINING%20MILLING/2B/2BE%20-%20Exploration/2BE-DUB0812%20Uranium%20North/3%20TECH/>

To date, the NWB has not been in receipt of any comments pertaining to the document. An internal review of the document has determined that it is generally satisfactory and consistent with the reporting requirements in the Licence. The review noted that no field activities were carried out during the 2011 reporting period.

The Licensee is advised, however, that the Board has not been in receipt of the Annual Reports for the 2009, 2010, and 2012 reporting periods. The Licensee is required to submit to the Board

for review copies of the aforementioned reports no later than **September 28, 2013**.

Should you have any question, please do contact the undersigned at 604-321-8185 or by email to sjoseph@nunavutwaterboard.org.

Yours truly,
