Dear Phyllis;

Enclosed please find a Water Use Permit Application for Tri Origin Exploration's planned short diamond drilling program in South Kivalliq near Edehon Lake. We are planning 4 to 6 drill holes, which would be 100 metres in length each. We will be staying in either Arviat or a fishing lodge, such as Nueltin Lake and flying in with chopper each day because it is such a short program. We are trying to mobilize for late August or early September, if we can get the proper permits. I am also submitting a land use permit application with the INAC in Iqaluit.

This package includes the Water Use Permit Application, the Exploration/Remote Camp Questionnaire, Exploration Project Summary, the Fuel Spill Contingency Plan, the Fire Contingency Plan and the Site Restoration Plan, the MSDS Fact Sheets along with figures of our mineral claim details.

Our head office in Markham will be sending under separate cover a cheque for \$ 60.00 made payable to the "Receiver General for Canada" to cover the permit application fee and the annual water useage charge. They will also be sending a copy of the BHP-Tri Origin Exploration Option agreement and/or an authorization memorandum from BHP. An original copy of a 1:250,000 topographic map showing the location of the drilling will also be forwarded from Markham to you.

If you need to talk about this application, please call me at the phone number listed below.

Thank you and regards,

A handwritten signature in black ink, appearing to read 'Chris Pegg', with a stylized flourish at the end.

Chris Pegg
