

Edahon Lake Clean Up Report – August 21 – 23, 2014

The site on arrival: Your photo -

August 21, 2014 - Ookpik Photo of the same site, taken from a different angle.
Note additional drums in the background.

At the camp site you stated there were the following items:

“53 drums, which we think are empty, 6 that could be full, and 9 or 10 propane tanks, which should also be empty”

The following items were removed from the camp:

- 66 empty drums
- 8x $\frac{1}{2}$ full drums, 2 $\frac{3}{4}$ full drums, 1 full drum
- 5x 20lb propane - empty
- 4x 60lb propane - empty
- Stove pipe
- Garbage 100lbs approx.

As described in 2a of the Service Agreement: All fuel drums, propane cylinders, camping materials and all other materials/waste products have been removed from the site. The site has been left in clean condition.

August 23, 2014 – Ookpik Photo of the same site showing everything removed.

August 23, 2014 - Aerial photo of the same site.
