Subject: RE: Information for Remediation of Tri origin property

Christine,

Over the past few weeks, Tri Origin has been in contact with expeditors and aviation companies initially to request availability and whether appropriate schedules could be met. Tender was put out to groups that confirmed the ability to complete the job. The groups included contacts supplied by you and others. Two firm quotes have been received. One is overly expensive and has been rejected. Ookpic Aviation Charter has provided a quote that is affordable by Tri Origin and they anticipate that the job could be done in July. Kississing Airways has confirmed that they will have a plane available by July in Churchill and are currently trying to locate a drum crusher in order to provide a competitive quote.

I am waiting for a quote from Kississing and once received, will award the contract to either Ookpic or Kississing. I will keep you up to date on progress. Tri Origin's intention is to enter into a contract agreement by mid-June and have site clean-up commence in July with a final report and photographs delivered to you by the end of July.

Regards,

Robert Valliant

Subject: RE: Information for Remediation of Tri origin property**

Good Afternoon Bob,

Being that it is May 30th, 2014, I would like to inquire about the status of the Edehon Lake site Remediation Plan.

As per our discussion mid May we had agreed an a update being provided today.

Please contact me via email before 5pm est time.

Thank you,

Christine

Hi Christine,

We've been going through all the coordinates we have at the Edehon Lake site and have found several different coordinates (for two separate sites; see JPEG map attached). We just want to confirm with you which site is the correct one that needs to be cleaned up. The coordinates you sent us yesterday correspond to the south site (labelled 2014 camp clean-up) and is near the coordinates we have for the airstrip. Is this the correct location of the clean up site? In addition, in the 2011 report by Henry Kablalik, there's a site to the north that Henry has notes on saying this site can be closed. No one here recalls doing work at this site, but do you have notes on it?

**Thank you,
Meghan**
