Hi Phyllis,

The review letter would be enough to trigger a NIRB screening if the application was for a Type A water license, or required a Water Board hearing. This appears to be a Type B permit which is exempt from NIRB screening under Schedule 12-1 (5) of the NLCA.

At this point we have received the Proponent's NIRB Part 1 and 2 forms which indicate further applications with INAC. I contacted INAC to see if there has actually been an application submitted, if the application would be a Class A which would require a NIRB screening, or if the application was for a Class B which would also be exempt. I have not yet received a response. Once we hear word from INAC, and they indicate that the application will be for a Class A land use permit, then I will send you an update.

Please let me know if you have any further questions, and I hope to get back to you shortly with more details if this file will require a NIRB screening or not.

Hi Tara, not quite sure on this but wouldn't my review letter constitute a trigger for NIRB to commence screening?

Regards,

---

Hi Phyllis, just to let you know that we are still waiting for a trigger on this project and have sent correspondence to other authorizing agencies to check if they have received applications concerning this project proposal. We have not yet heard anything back.

Please let me know if you require additional information. My direct line is 867-983-4611.

Notice to all Parties:

Please see attached letters and notices for the above application, which requires review and comments as well as an NPC Conformity and NIRB Screening. All documents received are on the ftp site at the following link (username *public* and password *registry*.)

Note that the deadline for comments is April 30, 2011. Those organizations with bulletin boards, and identified on the attached letter to Local Organizations, are respectfully requested to print off and post the attached notices for a period of 30 days, on our behalf.

Regards,

Phyllis Beaulieu
