

LAUNDRY DETERGENT

Conditions to avoid: NA

SECTION VI HEALTH HAZARDS

Acute: Eye burns

Chronic: Eye burns

Signs & Symptoms of Exposure: Eye irritation
Skin irritation

Medical Conditions Generally N.A.

Aggravated by Exposure:

Carcinogen or Potential Carcinogens: NONE

EMERGENCY FIRST AID:

EYES: Flush with water, call physician immediately.

SKIN: Flush with water, call physician if irritation persists.

INTERNAL: Induce vomiting, call a physician immediately.

ROUTES OF ENTRY:

1. Inhalation : NA
2. Eyes : Powder can cause eye burns
3. Skin : Powder may cause skin irritation
4. Ingestion : Will cause throat and stomach irritations

SECTION VII SPECIAL PRECAUTIONS AND SPILL/LEAK PROCEDURES

Handling and storage: Store in dry area
Keep closed when not in use

Other precautions : NONE

In case of spill : Sweep up material. Wash residue to drain with large amounts of water.

Waste Disposal : Dispose of in accordance with all federal, State, and Local pollution control regulation.

SECTION VIII SPECIAL PROTECTION INFORMATION

Respiratory Protection: NA

Ventilation : Avoid dust accumulation

Protective Gloves : NA

Eye Protection : Safety Glasses

Other : NA

Hygienic Practices : Wash thoroughly after handling

SECTION IX COMMUNITY RIGHT TO KNOW LIST

Chemical Name	CAS. No

MATERIAL SAFETY DATA SHEET - CANADA

1. PRODUCT IDENTIFICATION

Product Name: FANTASTIK (R) All Purpose Spray Cleaner
MSDS Code: 20283 (Canada)
Chemical Formula: Mixture
CAS Number: None

2. INGREDIENTS

MATERIAL	CAS NUMBER	PERCENT
2-Butoxyethanol	111-76-2	< 5
EXPOSURE LIMIT/SOURCE: 25 PPM TWA (skin)/ACGIH Skin and eye irritant/Mfr.		
Sodium Silicate	1344-09-8	< 2
EXPOSURE LIMIT/SOURCE: None established/ACGIH Possible eye and skin irritant/Mfr		

Sodium hydroxide

1310-73-2

< 1

EXPOSURE LIMIT/SOURCE:

2 mg/m3 Ceiling/ACGIH

Skin and eye irritant/Mfr.

Also contains water, dye, perfume and other essential ingredients.
Ingredients not precisely identified are proprietary.

3. HAZARDS IDENTIFICATION

CAUTION: CORROSIVE. AVOID CONTACT WITH EYES. FIRST AID TREATMENT: IF SPLASHED IN EYES OR ON SKIN, FLUSH THOROUGHLY WITH WATER. CONTAINS SODIUM HYDROXIDE.

EFFECTS OF OVEREXPOSURE:

Eyes: May cause mild irritation.
Skin: No irritation likely from incidental contact. May cause mild irritation from prolonged or repeated contact to skin.
Ingestion: Single dose oral toxicity is considered to be low.
Inhalation: No adverse effects are anticipated from inhalation.

4. FIRST AID MEASURES

Eyes: If splashed in eyes flush thoroughly with water.
Skin: If splashed on skin flush thoroughly with water.
Ingestion: Drink a glassful of water. Get medical attention.
Inhalation: If discomfort from prolonged inhalation develops, remove patient to fresh air and get medical attention.

5. FIRE FIGHTING MEASURES

Flash Point: None at/or below 220 deg F/TCC
Flammability Limits: Not applicable
Extinguishing Media: Use, water, CO2, dry chemicals or foam.
Fire and Explosion Hazards: None
Fire Fighting Equipment: Fire fighters should wear self-contained breathing apparatus and protective clothing.

6.. ACCIDENTAL RELEASE MEASURES

Small Spills: Absorb and wipe up or rinse away with water.
Large Spills: Dike far ahead of spill and collect for later disposal.
Waste Disposal: Follow all local, state and federal regulations. Notify waste treatment plant in case of large spill.

7. HANDLING AND STORAGE

DO NOT USE ON NON-URETHANE VARNISH OR GLASS. IF SPRAYED ON GLASS, RINSE IMMEDIATELY. AFTER USE SNAP COVER DOWN. STORE OUT OF REACH OF CHILDREN.

8. PERSONAL PROTECTION

Respiratory Protection: Not required under normal conditions
Ventilation: Normal
Other Protective Measures: Not required under normal conditions
Protective Gloves: Not required under normal conditions

Eye Protection: Not required under normal conditions

9. PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point, 760 mm Hg: 99.61 deg C
 Vapor Density: 12.2
 Vapor Pressure at 20 deg C: 15.4 mm Hg
 Volatiles by Volume @ 70 deg F, %: Not applicable
 Specific Gravity (20/4): 1.00
 Solubility in Water: Complete
 Evaporation Rate (water = 1): Not applicable
 pH: 12.4
 Appearance and Odor: Clear blue colored liquid with fresh scent

10. STABILITY AND REACTIVITY

Stability: Stable
 Conditions to Avoid: None
 Hazardous Decomposition: None
 Incompatibility: None
 Hazardous Polymerization: Will not occur

11. TOXICOLOGICAL INFORMATION

Tested and labeled to CPSC/FHSA requirements.
 The Acute Dermal LD50 is >2g/kg on rabbits.
 The Acute Oral LD50 is >5g/kg in rats.

Message from Flexo Products: Information for this material safety data sheet was obtained from sources considered technically accurate and reliable. While every effort has been made to ensure full disclosure of product hazards, in some cases data is not available and is so stated. Since conditions of actual product use are beyond the control of the supplier, it is assumed that user of the material has been fully trained according to the mandatory requirements of WHMIS. No warranty, expressed or implied, is made and the supplier will not be liable for any losses, injuries or consequential damages which may result from the use of or reliance on any information contained in this form. If the user requires independent information on ingredients in this or any other material, we recommend contact with the Canadian Centre for Occupational Health and Safety (CCOHS) in Hamilton, Ontario (1-800-263-8466), or CSST in Montreal, Quebec (514-873-3990).

 Means of Extinction: CO2, Water or Dry Chemical
 Special Fire Hazards: None Known

SECTION V - REACTIVITY DATA

=====
Conditions For Chemical Instability: Stable
Incompatibility: Do not mix with toilet bowl cleaner, rust remover, household ammonia or acids. Not recommended for use on silver, soft plastics or rubber.
Hazardous Decomposition Products: None known
=====

=====
SECTION VI - TOXICOLOGICAL PROPERTIES
=====

Route of Entry: Eye. Skin Contact. Inhalation. Ingestion.
Effects of Acute Exposure: Eye-May cause mild to moderate transient eye irritation. Skin Contact-Prolonged or repeated dermal contact with highly concentrated solutions may cause mild transient irritation.
Inhalation - None known. Ingestion-May cause mild gastrointestinal irritation with nausea, vomiting and diarrhea.
Effects of Chronic Exposure: None Known.
Irritancy: Hazardous by WHMIS Criteria (eye irritant)
Respiratory Tract Sensitization: None Known.
Carcinogenicity: None Known.
Reproductive Effects: None Known.
Teratogenicity: None Known.
Mutagenicity: None Known.
Synergistic Materials: None Known.
=====

=====
SECTION VII - PREVENTATIVE MEASURES
=====

Gloves: Rubber or neoprene for prolonged use.
Eye Protection: None required for normal use. In instances of dust or slurries, goggles are recommended.
Respiratory Protection: None required with normal use.
Other Protective Equipment: None required
Engineering Controls: None required with normal use.
Leak and Spill Procedure: Sweep up and dispose of as dry scrap in accordance with all applicable regulations.
Waste Disposal: Review fed., prov. and local regulations.
Storage Requirements: Cool, dry storage; avoid moisture to prevent caking. Minimize dusting when handling.
=====

=====
SECTION VIII - FIRST AID
=====

Eye: Flush with water for 15 min. If irritation persists, see physician.
Skin: Rinse affected area & discontinue use. If irritation persists, seek medical attention. A cold, wet compress may be used to relieve irritation.
Inhalation: Remove to fresh air. If symptoms persist, see a doctor.
Ingestion: Dilute with glass of water and treat symptomatically. If irritation persists, seek medical attention.
=====

=====
SECTION IX - ADDITIONAL INFORMATION
=====

This material safety data sheet applies to the concentrated product. Diluted versions of this product may have different hazard ratings.

Material Safety Data Sheet

CHEVRON Supreme Unleaded Gasoline

CPS201060

This Material Safety Data Sheet contains environmental, health and toxicology information for your employees. Please make sure this information is given to them. It also contains information to help you meet community right-to-know/emergency response reporting requirements under SARA Title III and many other laws. If you resell this product, this MSDS must be given to the buyer or the information incorporated in your MSDS. Discard any previous edition of this MSDS.

The Chevron MSDSs have been reformatted and expanded to provide you with

useful hazard warnings and health evaluations and to facilitate your compliance with local, State and Federal regulations.

1. PRODUCT IDENTIFICATION

CHEVRON Supreme Unleaded Gasoline

DANGER!

- HARMFUL OR FATAL IF SWALLOWED
- VAPOR HARMFUL
- LONG-TERM EXPOSURE TO VAPOR HAS CAUSED CANCER IN LABORATORY ANIMALS
- MAY CAUSE EYE AND SKIN IRRITATION
- EXTREMELY FLAMMABLE
- KEEP OUT OF REACH OF CHILDREN

CHEVRON PRODUCT NUMBER(S): CPS201060

PRODUCT INFORMATION: (800)582-3835

2. FIRST AID

EYE CONTACT:

Flush eyes immediately with fresh water for at least 15 minutes while holding the eyelids open. Remove contact lenses if worn. No additional first aid should be necessary, however, if irritation persists, see a doctor.

SKIN CONTACT:

No first aid procedures are required. As a precaution, wash skin thoroughly with soap and water. Remove and wash contaminated clothing.

INHALATION:

If respiratory irritation or any signs or symptoms as described in this document occur, move the person to fresh air. If any of these effects continue, see a doctor.

INGESTION:

If swallowed, give water or milk to drink and telephone for medical advice. DO NOT make person vomit unless directed to do so by medical personnel. If medical advice cannot be obtained, then take the person and product container to the nearest medical emergency treatment center or hospital. Note to Physician: Ingestion of this product or subsequent vomiting can result in aspiration of light hydrocarbon liquid which can cause pneumonitis.

3. IMMEDIATE HEALTH EFFECTS

EYE CONTACT:

This substance is slightly irritating to the eyes and could cause prolonged (days) impairment of your vision. The degree of the injury will depend on the amount of material that gets into the eye and the speed and thoroughness of the first aid treatment. Signs and symptoms may include pain, tears,

swelling, redness, and blurred vision. Eye contact with the vapors, fumes, or spray mist from this substance could also cause similar signs and symptoms.

SKIN IRRITATION:

Prolonged or frequently repeated contact may cause the skin to become cracked or dry from the defatting action of this material.

DERMAL TOXICITY:

If absorbed through the skin, this substance is considered practically non-toxic to internal organs.

RESPIRATORY/INHALATION:

This substance is slightly toxic to internal organs if inhaled. The degree of

Component Information/Information on Non-Hazardous Components

The maximum percentage of the petroleum distillate and/or residual oil blend contained in this

product is: 82- 88 %, *except for 10W40: 78%.

All mineral oils used in this product have been severely hydrotreated and/or solvent refined.

This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication).

* * * Section 3 - Hazards Identification * * *

Emergency Overview

This product is a non-flammable, amber to brown petroleum distillate mixture. This product may cause irritation to the eyes. Oil mists may be irritating to the respiratory system and skin.

Irritating and toxic vapors may be released upon combustion of product. Extinguish fire with carbon dioxide, dry chemical, foam or water fog.

Hazard Statements

This product is irritating to the eyes, and may be irritating to the skin and respiratory system. Pulmonary aspiration hazard if swallowed.

Potential Health Effects: Eyes

This product may cause irritation to the eyes.

Potential Health Effects: Skin

This product may cause irritation to the skin. Prolonged or repeated contact with skin may cause

mild irritation and possibly dermatitis.

Potential Health Effects: Ingestion

No significant adverse effects are expected upon ingestion of the product. Ingestion of this

product may cause nausea, vomiting and diarrhea. Small amounts of this product, if aspirated

into the lungs, may cause mild to severe pulmonary injury, possibly death.

Motor Oil

Potential Health Effects: Inhalation

Low vapor pressure makes inhalation unlikely at standard temperatures and pressures. Inhalation

of oil mists or fumes can cause irritation of the nose, throat and upper respiratory tract.

Repeated and prolonged overexposure to oil mists may result in droplet deposition, oil granuloma

formation, inflammation and increased incidence of infection. If this product is heated over 70

C (155 F), hydrogen sulfide gas may be released. Hydrogen sulfide is irritating to the eyes and

respiratory system. Continued overexposure may cause respiratory collapse, coma, and death

without necessarily any warning odor being sensed.

HMIS Ratings: Health: 1 Fire: 1 Reactivity: 0 Pers. Prot.: gloves, goggles

Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe
* =

Chronic hazard

* * * Section 4 - First Aid Measures * * *

First Aid: Eyes

Flush eyes with large amounts of water for 15 minutes. Get medical attention or advice.

First Aid: Skin

Remove contaminated clothing. Wash affected area with mild soap and water. Launder contaminated clothing before reuse. If leather articles become saturated they should be discarded.

First Aid: Ingestion

Due to the physical nature of this material, ingestion is unlikely to occur. If ingestion of a large amount does occur, seek medical attention. Call your local poison control center or get medical attention.

First Aid: Inhalation

Remove to fresh air. If not breathing, give mouth to mouth resuscitation. If powder or dust from this material is inhaled, remove the person immediately to fresh air. Call a physician.

First Aid: Notes to Physician

This material, if aspirated into the lungs, may cause chemical pneumonitis; treat at the affected person appropriately.

* * * Section 5 - Fire Fighting Measures * * *

Motor Oil

Flash Point: 400 F (204 C) *except for Method Used: Cleveland Open Cup
5W30: 385 F (196 C)

Upper Flammable Limit (UFL): Not determined Lower Flammable Limit (LFL): Not determined

Rate of Burning: Not determined

General Fire Hazards

This product is combustible at high temperatures.

Hazardous Combustion Products

Carbon dioxide, carbon monoxide, aldehydes, oxides of sulfur, calcium, nitrogen, magnesium, phosphorus and zinc, and other hydrocarbon fractions. Hydrogen sulfide and alkyl mercaptans and sulfides may also be released.

Extinguishing Media

However, water may be the most suitable extinguishing media due to its cooling properties on molten compounds. Water spray or foam for large fires.

Fire Fighting Equipment/Instructions

Firefighters should wear full-face, self contained breathing apparatus and impervious protective clothing. Firefighters should avoid inhaling any combustion products.

NFPA Ratings: Health: 1 Fire: 1 Reactivity: 0 Other:

Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe

* * * Section 6 - Accidental Release Measures * * *

Containment Procedures

Eliminate all sources of ignition or flammables that may come into contact with a spill of this material. Stop the flow of material, if this is without risk.

Clean-Up Procedures

Wear appropriate protective equipment and clothing during clean-up. Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps. Scoop up used absorbent into drums or other appropriate container. Do not allow the spilled product to enter public drainage systems or open water courses. Surfaces may become slippery after spillage.

Evacuation Procedures

Persons not wearing protective equipment should be excluded from area of spill

ORANGE HAND CLEANER

disposal: Dispose of uncontaminated material through sewage system with permission of the authority responsible for that system.
Follow EPA and local regulations.

ORANGE HAND CLEANER

Company:

Loctite Corp.,

(24hr.) Phone:

1001 Trout Brook Crossing, Rocky Hill, CT 06067

Revision Date:

(860) 571-5100

January 27, 1999

Revision: 0001

until clean-up
has been completed.

Special Procedures

Remove soiled clothing and launder before reuse. Avoid skin contact and inhalation of vapors during disposal of spills.

*** Section 7 - Handling and Storage ***

Handling Procedures

Avoid getting this material into contact with your skin and eyes. Avoid breathing fumes if this product is used at high temperatures. Avoid the generation of oil mists. Wash hands after handling and before eating. Launder work clothes frequently.

Storage Procedures

Keep the container tightly closed and in a cool, well-ventilated place. Do not store this material in open or unlabeled containers. Store away from strong oxidizers. Empty containers may retain product residue including flammable or explosive vapors. Do not cut, drill, grind, or weld near full, partially full, or empty product containers.

*** Section 8 - Exposure Controls / Personal Protection ***

Exposure Guidelines

A: General Product Information

If oil mists are generated, observe the OSHA exposure limit of 5 mg/m³. The following are recommended exposure limits for hydrogen sulfide: OSHA PEL 8H TWA 10 ppm (14 mg/m³), Ceiling 20 ppm and ACGIH 8H TWA 10 ppm (14 mg/m³). Attempts should be made to eliminate all contact with skin and eyes, and to limit inhalation exposure.

B: Component Exposure Limits

No information is available.

Engineering Controls

Use general ventilation. Use in a well-ventilated area. If product is heated above 70 C (155 C), hydrogen sulfide vapors may be released. Ventilation should be sufficient to keep hydrogen sulfide levels below recommended exposure limits.

PERSONAL PROTECTIVE EQUIPMENT

Personal Protective Equipment: Eyes/Face

Wear safety glasses; chemical goggles (if splashing is possible).

Personal Protective Equipment: Skin

Use impervious gloves for prolonged contact or any contact with used oil. The use of neoprene

Motor Oil

gloves is recommended.

Personal Protective Equipment: Respiratory

When dusts or thermal processing fumes are generated and ventilation is not sufficient to

effectively remove them, appropriate NIOSH/MSHA approved respiratory protection must be

provided. If mist is generated (heating, spraying) and engineering controls are not sufficient,

wear approved organic vapor respirator suitable for oil mist.

Personal Protective Equipment: General

Use good hygiene when handling petroleum product.

* * * Section 10 - Chemical Stability & Reactivity Information

Chemical Stability

Stable

Chemical Stability: Conditions to Avoid

Avoid excessive heat and all sources of ignition.

Incompatibility

Oxidizing agents, acids, halogens and halogenated compounds.

Hazardous Decomposition

At thermal decomposition temperatures carbon dioxide, carbon monoxide, fumes, smoke, aldehydes, oxides of sulfur, sodium, calcium, nitrogen, magnesium, phosphorous, and zinc, and various hydrocarbons. Hydrogen sulfide and alkyl mercaptans and sulfides may also be released.

Hazardous Polymerization

Hazardous polymerization will not occur.

* * * Section 11 - Toxicological Information * * *

Acute Toxicity

A: General Product Information

Based on similar products the LD50 is expected to be greater than 5,000 mg/kg.

Product has the ability to cause oil acne on the skin and fibrosis in the lung.

B: Component Analysis - LD50

Petroleum Distillates, Hydrotreated Heavy Paraffinic (64742-54-7)

RTECS: PY8035500

Oral LD50 Rat: >15 gm/kg

Dermal LD50 Rabbit: >5 gm/kg

RTECS: PY8035501

Oral LD50 Rat: >15 gm/kg

Dermal LD50 Rabbit: >5 gm/kg

Carcinogenicity

A: General Product Information

No data available on the product as a whole. Note that USED oils tend to contain higher amounts of the cancer-causing aromatics, which have been linked to scrotal and lung cancer in humans.

B: Component Carcinogenicity

None of this product's components are listed by ACGIH, IARC, OSHA, NIOSH, or NTP.

Epidemiology

No data available for product.

Neurotoxicity

No data available on this product as a whole.

Mutagenicity

No data available on this product as a whole.

Teratogenicity

Review of information on components indicates no components at greater than 1.0

Motor Oil

§ have
teratogenic effects.

Other Toxicological Information

Persons with skin or respiratory conditions may be more sensitive to product. This product contains a blend of petroleum distillates and residual oils, all of which have been solvent refined or severely hydrotreated. The petroleum distillate and residual oil blend consists of one or more of the components identified by CAS Number in Section 2. Since these components vary with the availability of materials their presence is noted as "blend".

*** Section 12 - Ecological Information ***

Ecotoxicity

No information is available on ecotoxicity of this product. Keep product out of sewers and waterways.

Environmental Fate

No information is available.

*** Section 13 - Disposal Considerations ***

US EPA Waste Number & Descriptions

A: General Product Information

Product as shipped does not meet the definition or characteristics of a hazardous waste. User must test waste using methods described in 40 CFR Part 261 to determine if it meets applicable definitions of hazardous wastes.

B: Component Waste Numbers

No information is available.

Disposal Instructions

Used oil can be returned to a collection center or provided to a licensed recycler. All wastes must be handled in accordance with local, state and federal regulations.

*** Section 14 - Transportation Information ***

US DOT Information

Shipping Name: Not regulated as a hazardous material

Hazard Class: None

UN/NA #: None

Packing Group: None

International Transportation Regulations

Not regulated as dangerous goods.

*** Section 15 - Regulatory Information ***

Motor Oil

US Federal Regulations

A: General Product Information

This product may be classified as an oil under Section 311 of the Clean Water Act, and under the Oil Pollution Act. Discharges of spills into or leading to surface waters that cause sheen must be reported to the National Response Center. (1-800-424-8802) All components of this product are listed on the U.S. EPA TSCA Inventory.

B: Component Analysis

None of this products components are listed under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65), or CERCLA (40 CFR 302.4).

State Regulations

A: General Product Information

No components require labeling under California Proposition 65.

B: Component Analysis - State

No information is available.

Other Regulations

A: General Product Information

This product is not considered a controlled product under the Canadian Controlled Products Regulation.

This product has been classified in accordance with the hazard criteria of the CPR, and the MSDS contains all the information required by the CPR.

B: Component Analysis - Inventory

EINECS	Component	CAS #	TSCA	DSL
Yes	Petroleum Distillates, Solvent Dewaxed	64742-65-0	Yes	Yes

Material Safety Data Sheet

CHEVRON Supreme Unleaded Gasoline

CPS201060

This Material Safety Data Sheet contains environmental, health and toxicology information for your employees. Please make sure this information is given to them. It also contains information to help you meet community right-to-know/emergency response reporting requirements under SARA Title III and many other laws. If you resell this product, this MSDS must be given to the buyer or the information incorporated in your MSDS. Discard any previous edition of this MSDS.

The Chevron MSDSs have been reformatted and expanded to provide you with

useful hazard warnings and health evaluations and to facilitate your compliance with local, State and Federal regulations.

1. PRODUCT IDENTIFICATION

CHEVRON Supreme Unleaded Gasoline

DANGER!

- HARMFUL OR FATAL IF SWALLOWED
- VAPOR HARMFUL
- LONG-TERM EXPOSURE TO VAPOR HAS CAUSED CANCER IN LABORATORY ANIMALS
- MAY CAUSE EYE AND SKIN IRRITATION
- EXTREMELY FLAMMABLE
- KEEP OUT OF REACH OF CHILDREN

CHEVRON PRODUCT NUMBER(S): CPS201060

PRODUCT INFORMATION: (800) 582-3835

2. FIRST AID

EYE CONTACT:

Flush eyes immediately with fresh water for at least 15 minutes while holding the eyelids open. Remove contact lenses if worn. No additional first aid should be necessary, however, if irritation persists, see a doctor.

SKIN CONTACT:

No first aid procedures are required. As a precaution, wash skin thoroughly with soap and water. Remove and wash contaminated clothing.

INHALATION:

If respiratory irritation or any signs or symptoms as described in this document occur, move the person to fresh air. If any of these effects continue, see a doctor.

INGESTION:

If swallowed, give water or milk to drink and telephone for medical advice. DO NOT make person vomit unless directed to do so by medical personnel. If medical advice cannot be obtained, then take the person and product container to the nearest medical emergency treatment center or hospital. Note to Physician: Ingestion of this product or subsequent vomiting can result in aspiration of light hydrocarbon liquid which can cause pneumonitis.

3. IMMEDIATE HEALTH EFFECTS

EYE CONTACT:

This substance is slightly irritating to the eyes and could cause prolonged (days) impairment of your vision. The degree of the injury will depend on the amount of material that gets into the eye and the speed and thoroughness of the first aid treatment. Signs and symptoms may include pain, tears,

swelling, redness, and blurred vision. Eye contact with the vapors, fumes, or spray mist from this substance could also cause similar signs and symptoms.

SKIN IRRITATION:

Prolonged or frequently repeated contact may cause the skin to become cracked or dry from the defatting action of this material.

DERMAL TOXICITY:

If absorbed through the skin, this substance is considered practically non-toxic to internal organs.

RESPIRATORY/INHALATION:

This substance is slightly toxic to internal organs if inhaled. The degree of

MATERIAL SAFETY DATA SHEET

PRODUCT INFORMATION

PRODUCT NAME: Oxygen CHEMICAL FAMILY: Oxidizer
SYNONYMS: Oxygen, compressed TDG CLASSIFICATION: 2.2 (5.1) UN 1072

HAZARDOUS INGREDIENTS

COMPONENT	FORMULA	CONCENTRATION	CAS #
Oxygen	O2	100%	7782-44-7

PREPARATION INFORMATION

PREPARED BY: Gas Products Dept. DATE PREPARED: January, 1989
DATE REVIEWED: June 30, 1992
PHONE NO.: (416) 273-7700

HEALTH HAZARD DATA

TIME WEIGHTED AVERAGE EXPOSURE LIMIT:

None established. Oxygen is the "vital element" in the atmosphere in which we live and breathe (approximately 21 molar % of the atmosphere).

SYMPTOMS OF EXPOSURE:

Breathing high concentrations (greater than 75 molar percent) causes symptoms of hyperoxia which included cramps, nausea, dizziness, hypothermia, ambylopia, respiratory difficulties, bradycardia, fainting spells and convulsions capable of leading to death. For additional information on hyperoxia, see Compressed Gas Association's Pamphlet P-14.

TOXICOLOGICAL PROPERTIES:

The property is that of hyperoxia which leads to pneumonia. Concentrations between 25 and 75 molar percent present a risk of inflammation of organic matter in the body.

FIRST AID

PROMPT MEDICAL ATTENTION IS MANDATORY IN ALL CASES OF OVEREXPOSURE TO OXYGEN. RESCUE PERSONNEL SHOULD BE COGNIZANT OF EXTREME FIRE HAZARD ASSOCIATED WITH OXYGEN-RICH ATMOSPHERES.

Conscious persons should be assisted to an uncontaminated area and breathe fresh air. They should be kept warm and quiet. The physician should be informed that the victim is experiencing (has experienced) hyperoxia.

Unconscious persons should be moved to an uncontaminated area and given assisted respiration. When breathing has been restored, treatment should be as above. Continued treatment should be symptomatic and supportive.

PHYSICAL DATA

Boiling Point: -182.9 deg C (-297.3 deg F)
Liquid Density @ Boiling Point: 1141 kg/m³ (71.23 lb/ft³)
Vapor Pressure @ 21.1 deg C (70 deg F): Gaseous above the critical temp. of -118.4 deg C (-181.1 deg F)
Specific Gravity @ 21.1 deg C, 1 Bar (Air=1): 1.11
Solubility in Water: Slightly soluble
Freezing Point: -218.8 deg C (-361.8 deg F)
Appearance and Odour: Colourless, odourless gas.

FIRE/EXPLOSION HAZARDS DATA

Flash Point (Method Used): Nonflammable
Auto Ignition Temperature: Nonflammable
Flammability Limits: LEL: Nonflammable
UEL: Nonflammable
Extinguishing Media: Copious quantities of water for fires with oxygen as the oxidizer.

Electrical Classification: Nonhazardous

Special Fire Fighting Procedures: If possible, stop the flow of oxygen which is supporting the fire.

Unusual Fire and Explosion Hazards: Vigorously accelerates combustion.

REACTIVITY DATA

Stability: Stable
