**Re: Starfield Resources Water License NWB2FER0305 Renewal.**

Dear Phyllis:

As per our conversation of February 17th, 2005, I am submitting the various forms for the Renewal of **Water License NWB2FER0305**. (see attached) The renewal extension that I would be seeking would be a further two (2) period. All work on the property is currently being conducted under KIA Land Use License(s) **#KVL399C150 and #KVL103B303**. (see attached)

**NOTE: KVL101B303 covers ground optioned in the name of Lawrence Barry. Ground is currently being transferred from Lawrence Barry to Starfield Resources.**

As per our discussion, very little change has occurred with regards to our past renewal application. Changes that have occurred have primarily been with regards to on site safety, upgrades to our power plant and upgrades to our drilling equipment.

Drilling as per the application continues to be focused in those areas previously outlined. (see attached) Exploration outside of these identified areas of interest continues to be in the form of mapping, prospecting and geophysics. Access to all these areas is helicopter assisted which is based out of the Ferguson Lake Lodge.

As per the past five (5) years, Starfield Resources will continue to adhere to all environmental guidelines with regards to onsite cleanup, reclamation and water management.

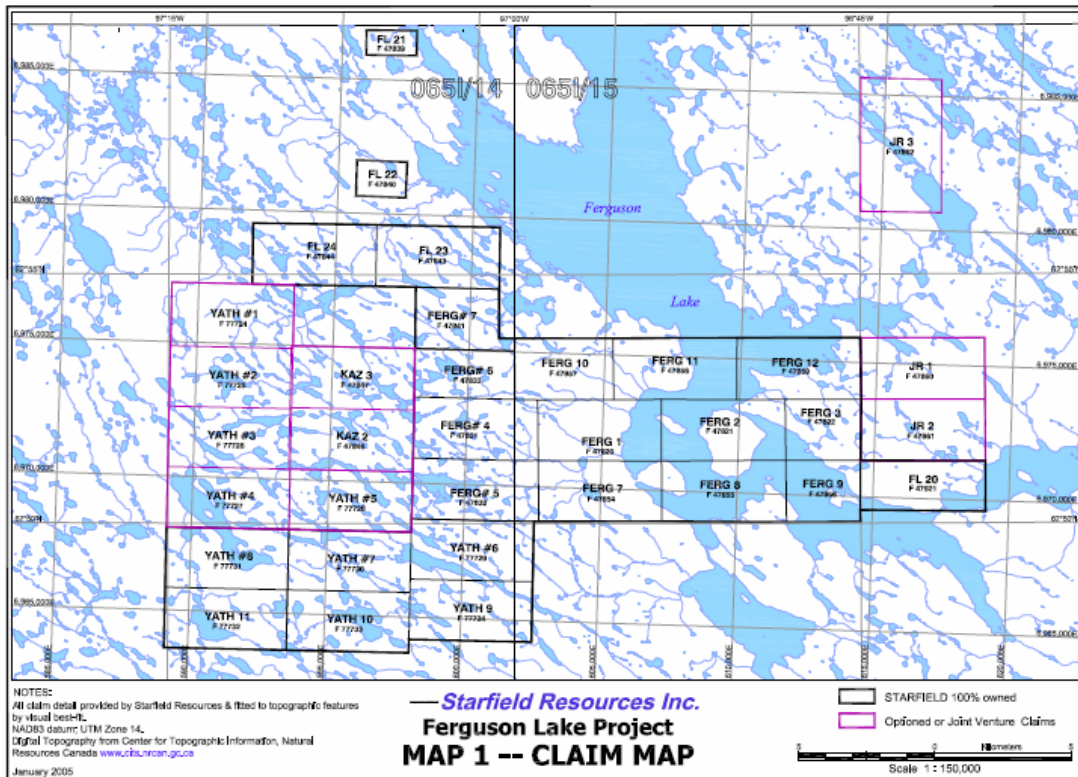

If there are any questions in the matter, I can be reached at either 604-786-9095 (cell) via fax at 604-682-1816 or via email at [john\\_nicholson@telus.net](mailto:john_nicholson@telus.net).

Sincerely,

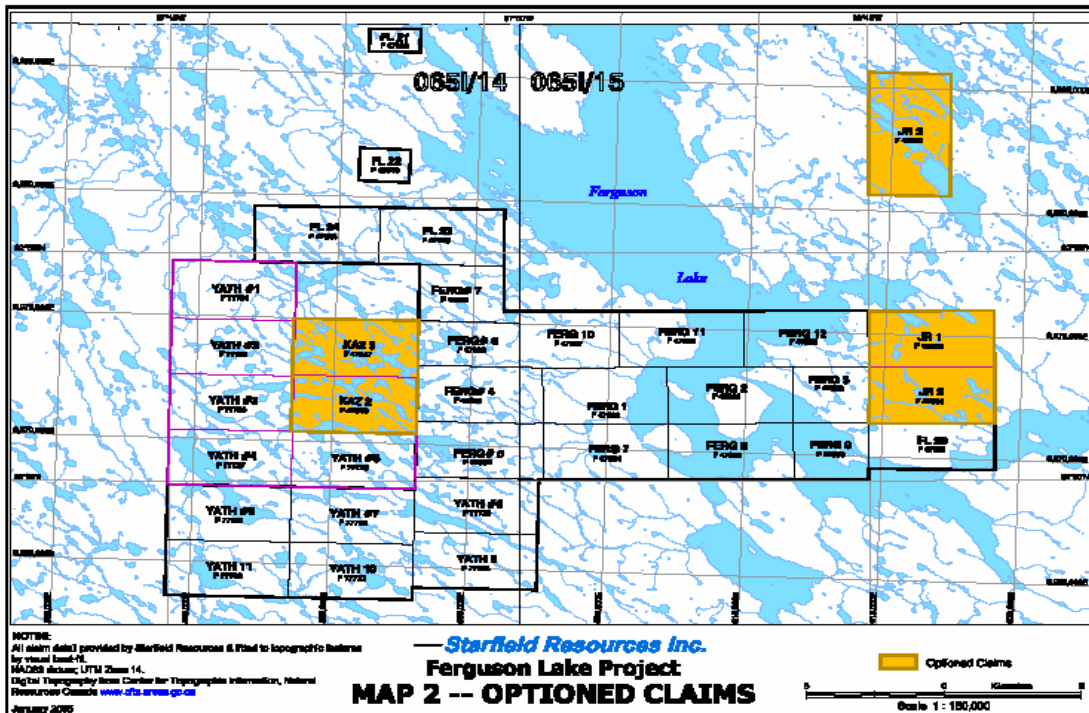

***"John A. Nicholson"***
