IV. BACKGROUND

Corporate History and Structure

- 6. Starfield is a Canadian-based exploration and emerging early-stage development company exploring for copper, cobalt, nickel and platinum group elements ("PGE") in North America. The Company's shares are publicly traded on the Toronto Stock Exchange ("TSX") under the symbol "SRU" and in the U.S. on the Over-The-Counter Bulletin Board under the symbol "SRFDF".
- 7. Starfield was incorporated on April 22, 1994 under the Business Corporations Act (Alberta). The Company amended its articles on October 6, 1994 to change the Company's name to Starfield Communications Group Inc. The articles were amended again on December 18, 1997 to change its name to Starfield Resources Inc. On October 27, 2006, the Company filed articles of continuance in British Columbia. The Company is governed by the Business Corporations Act (British Columbia) and is a reporting issuer in the provinces of British Columbia, Alberta and Ontario, and in the North West Territories. Starfield's registered office is located at 625 Howe Street, Suite 420, Vancouver, British Columbia, and the Company's head office is located at 120 Adelaide Street West, Suite 900, Toronto, Ontario.
- 8. The Company currently holds a direct or indirect interest in the following mineral properties/projects (the "Projects"):
 - (i) a nickel-copper-cobalt-PGE project in Ferguson Lake, Nunavut (the "Ferguson Lake Project");

- (ii) a nickel-copper-cobalt-PGE project in Montana, USA (the "**Stillwater Project**");
 - (iii) a copper-silver project in California, USA (the "**Superior Project**"); and
 - (iv) an early stage gold property which straddles the Nevada-California border (the "**Dome Hill Project**").
9. Substantially all of the Ferguson Lake Project assets are held by Starfield directly. The Company acquired its interest in the above U.S. projects through its acquisition of all of the shares of Nevoro Inc. ("**Nevoro**"), a formerly TSX listed corporation incorporated under the laws of Canada, pursuant to a plan of arrangement in October 2009.
10. Starfield Resources Inc. is the parent company and the primary direct or indirect shareholder of the following entities:
- (i) Nevoro Inc. (Canada);
 - (ii) Sheffield Resources Ltd. (B.C.);
 - (iii) Aurora Platinum Exploration Inc. (B.C.);
 - (iv) Nevoro Copper Inc. (Nevada);
 - (v) Nevoro Montana Inc. (Montana); and
 - (vi) Nevoro Nevada Inc. (Nevada).

The Company's corporate chart is attached hereto as **Appendix "B"**.

11. The Trustee understands that the Company has not initiated insolvency proceedings in the U.S. There is presently no intention to commence insolvency proceedings in respect of the Company's Canadian or U.S. subsidiaries. The Company advises that substantially all administrative and Project-related costs are paid for by Starfield.

Company Operations

12. As referenced above, Starfield's operations consist of three main projects:
- (i) the Ferguson Lake Project, located in the Kivalliq region of southern Nunavut, consists of 10 mineral leases covering 23,935 acres and 107 active claims totaling 220,273 acres. The Company incurred substantial exploration expenditures on the Ferguson Lake property in the last few years as it attempted to define this very large resource. On March 20, 2008, the Company announced positive economics from a preliminary economic assessment of the Ferguson Lake

Project. On February 21, 2012, the study was updated, and continued to show that the project was economically attractive. Per the preliminary economic assessment, the Ferguson Lake Project has indicated and inferred resource estimates of 672 million pounds of nickel, 1 billion pounds of copper and 57 million pounds of cobalt at grades of 0.66%, 1.00% and 0.06%, respectively.

- (ii) the Stillwater Project, comprised of approximately 5,700 acres, is located in south central Montana and consists of 34 patented lode claims, 234 unpatented lode mining claims, 7 unpatented placer claims, 2 mill site claims and 1 tunnel claim. Starfield's interests in the Stillwater Project are held through Nevoro Montana Inc.
 - (iii) the Superior Project, totaling approximately 3,160 acres, is located in northeastern California and consists of 36 patented lode mining claims and 122 unpatented lode mining claims. Starfield's interests in the Superior Project are held through Nevoro Copper Inc.
13. The Trustee understands Starfield no longer intends to pursue the Dome Hill project and in May 2011, the Company entered into a 2 year option agreement with a U.S. gold company to sell its interest the Dome Hill Project over a three year period for \$25,000. As at the date of this First Report, Starfield had received the first 2 payments of \$5,000 each pursuant to the option agreement with the final payment of \$15,000 due in June 2013. However, the Trustee understands that the U.S. gold company has the option to terminate this agreement at any time.
14. As referenced above, Starfield operates from a 2,150 square foot leased office facility in Toronto, Ontario. The Company also owns a semi-permanent exploration camp on the western shore of Ferguson Lake, Nunavut, capable of accommodating a team of up to 65 persons. There is also a 830 metre gravel airstrip adjacent to the exploration camp, as well as several pieces of construction and exploration equipment located on the camp site.
15. The Trustee understands that during 2012, Starfield had two full-time salaried employees. However, both individuals left the Company prior to January 1, 2013. In addition, the former CEO and CFO each left the Company on November 30, 2011 and March 23, 2012, respectively. As at the Filing Date, Starfield had four consultants under contract, including the present CEO and the CFO. All four consultants are being paid in the ordinary course.

Flow-Through Share Structure

16. As is common among exploration and early stage resource development companies, Starfield does not yet generate revenues from operations and relies on the equity markets to finance its activities. As the public company in the corporate group, financing activities have historically been undertaken by the Company, with the proceeds from such financings used to fund the activities of the Company and its subsidiaries. Since approximately January 2012, the equity markets have effectively been closed to exploration and early stage development companies.
17. The Company's three most recent equity financings have been through the issuance of flow-through common shares. As at the date of this First Report, Starfield had approximately 718 million issued and outstanding common shares, of which approximately 229 million are flow-through common shares.
18. A flow-through share is a Canadian tax-based financing incentive that is available to, among others, the mining sector for qualified projects located in Canada. It is a type of share issued by a corporation to an investor, pursuant to a subscription agreement with the corporation, under which the issuing corporation agrees to incur eligible Canadian exploration expenses (the "CEE's") in an amount up to the consideration paid by the investor for the shares in a particular year. The corporation renounces to the taxpayer an amount in respect of the expenditures so that the CEEs are considered to be the investor's expenses for tax purposes. As a result of the corporation renouncing the expenses, the investor can deduct the expenses for tax purposes as if incurred directly.
19. Subject to certain conditions, the CEEs qualify for the "look-back" rule, which allows a corporation to renounce the CEEs incurred within an entire calendar year ("Year 1") with the renunciation being effective for tax purposes in the preceding calendar year ("Year 0"), the year the investor purchased the flow-through shares. Where a corporation has not expended all or part of the amounts it has renounced by the end of Year 1, the corporation must notify the investor of the shortfall within two months after the end of Year 1. The investor is vulnerable to having the deductions taken in calculating their Year 0 taxes being partially denied, income taxes being reassessed and any amount owing becoming immediately due. In an effort to protect investors from such adverse consequences, subscription agreements typically contain an indemnity in favour of the investor from the issuing corporation. Furthermore, the corporation is also subject to penalties and interest from Canada Revenue Agency ("CRA") for the shortfall to compensate CRA for accelerating the investor's deduction by one year.

20. In 2010, Starfield raised gross proceeds of approximately \$4.9 million from investors through two private placements of flow-through common shares (the "**2010 Flow-Through Investors**"). All of the proceeds were raised for exploration purposes and, therefore, the CEEs were renounced to investors in 2010. In February 2012, Starfield notified the 2010 Flow-Through Investors that the Company's expenditures in 2011 resulted in a shortfall of approximately \$969,000. As a result, the Company is subject to the provisions of the associated flow-through subscription agreement which the Company estimates has resulted in a contractual indemnity obligation to the 2010 Flow-Through Investors of approximately \$450,000. Starfield was also subject to penalties and interest from CRA of approximately \$60,000, although all these amounts were paid in 2012.
21. In May 2011, Starfield raised gross proceeds of approximately \$3.8 million from investors through the private placement of flow-through common shares (the "**2011 Flow-Through Investors**"). All of the proceeds were raised for exploration purposes and, therefore, the CEEs were renounced to investors in 2011. In December 2012, Starfield notified the 2011 Flow-Through Investors that the Company's expenditures in 2012 resulted in a shortfall of approximately \$2.9 million. As a result, the Company is subject to the provisions of the associated flow-through subscription agreement which the Company estimates has resulted in a contractual indemnity obligation to the 2011 Flow-Through Investors of approximately \$1.4 million. In addition, the Company is subject to penalties and interest from CRA of approximately \$320,000.
22. In summary, the Trustee understands that the Company has potential liabilities relating to Starfield's failure to incur adequate CEEs in connection with the issuance of its flow-through shares of approximately \$320,000 to CRA, \$450,000 to the 2010 Flow-Through Investors, and \$1.4 million to the 2011 Flow-Through Investors, as at the date of this First Report.

Historical Financial Results

23. The Company's most recent year-to-date ("**YTD**") summarized financial statements are presented as at November 30, 2012. Set out below is a summary of the Company's financial results for: (i) the fiscal period ending 2010; (ii) the fiscal period ending 2011; (iii) the fiscal period ending 2012; and (iv) YTD November 30, 2012 (unaudited).

Starfield Resources Inc. Consolidated statement of income ⁽¹⁾ (in \$000s CAD)

Net loss	\$ 1,957	\$ 8,604	\$ 6,522	\$ 3,890

(1) Fiscal 2010 is based on Canadian GAAP. Subsequent years were prepared in accordance with IFRS.

24. As none of Starfield's mineral properties are in production, the Company currently has no source of revenue. As detailed in the tables above, the Company had incurred significant recurring net losses over the past three fiscal years. Furthermore, the Company's net loss has increased each year since fiscal 2010. The Trustee understands that the majority of Starfield's expenses are related to exploration, maintenance and environmental remediation costs for the Ferguson Lake Project, claim maintenance fees related to the Projects, and limited exploration expenses related to the Stillwater Project.

25. Below is a summary of the Company's unaudited balance sheet as at November 30, 2012:

Starfield Resources Inc. Consolidated balance sheet as at November 30, 2012 (in \$000s CAD)			
ASSETS		LIABILITIES AND SHAREHOLDER'S EQUITY	
Current Assets		Current Liabilities	
Cash	\$ 876	Accounts payable and accrued liabilities	\$ 748
Accounts receivable	26	Income tax payable	29
Prepaid expenses and deposits	420	Total Current Liabilities	\$ 777
Total Current Assets	\$ 1,322

		Warrants	2,772
		Retained earnings (deficit)	(158,499)
		Total Shareholders' Equity	\$ 14,624
		Total Liabilities and Shareholders' Equity	\$ 15,401

26. The November 30, 2012 balance sheet reflects that the Company has an accumulated retained earnings deficit of approximately \$158 million. The notes accompanying the Company's

November 30, 2012 financial statements state that the Company's operating budget indicates that the cash on hand at November 30, 2012 will be depleted by April 2013 if the Company continues as a going concern and does not obtain additional cash through financing and/or investing activities. Furthermore, the November 30, 2012 balance sheet does not reflect the Company's obligations in connection with the May 2011 flow-through share issuance, as detailed above.

27. As a result of the sustained losses and challenging financial markets, Starfield has exhausted its liquidity and has no ability to raise additional equity, which historically has been the primary source of capital for the Company, and as such, has elected to file a NOI and restructure the Company.

Creditors

28. A copy of the creditor list included in the NOI filing is attached as **Appendix "C"**.
29. The Trustee understands that the Company does not have any secured creditors. The Company advises that all employee related amounts are current, all required remittances of employee withholdings and HST have been made when due, and the Company has no pension obligations whatsoever.
30. The Company estimates that it had total unsecured payables and accrued liabilities of approximately \$2.3 million as at March 6, 2013 (inclusive of the contractual indemnity claims of the 2010 Flow-Through Investors and the 2011 Flow-Through Investors). The following table summarizes the amounts owing to unsecured creditors:

Starfield Resources Inc.	
Estimated unsecured creditors as at March 6, 2013	
(\$000)	
Trade payables	\$ 144
Accrued liabilities	1,857
Taxes payable	320
	<u>\$ 2,321</u>

31. In addition, the Company is a defendant in three litigation matters, as follows:

- (i) a claim by Discovery 2010 Flow-Through Limited Partnership seeking damages in the amount of \$114,569.00 plus interest and costs relating to the contractual indemnity contemplated in its 2010 Flow-Through Investors subscription agreement;
