Subject: Starfield Resources submission of the revised Ferguson Lake Project Spill Contingency Plan under Part H, Item 1 of Licence NWB2FER0507

Dear Mr. Nicholson;

The Nunavut Water Board ("NWB") would like to acknowledge receipt of the above document under Part H, Item 1 of Licence NWB2FER0507, sent on November 2, 2005. The Spill Contingency Plan revision was found to meet the additional requirements set out in the current Licence and is hereby accepted and approved by the NWB under **Motion 2005-14**, dated June 27, 2005.

The technical review was completed and the revised Spill Contingency Plan was found to satisfy the concerns identified by the NWB and interested persons during the initial review period of the Licence renewal. With the Licence amendment application currently being processed by the NWB, additional changes to the scope of the project and to contact numbers will require revisions to the Plan.

Should you have any further questions, please feel free to contact me at (780) 443-4406, at your earliest convenience.

Yours truly,
