Re: 2011 Lands Inspection Report of 2BE-FRK0812 Fork Property - LUP N2008C0016

Phyllis,

Further to the request by Barry Hanslet for closure of the "Fork Property Project" located in the Kitikmeot Region.

On March 2nd, 2011 Aboriginal Affairs and Northern Development Canada's (AANDC) Waters Section recommended that, prior to approval for closure being granted by the Board, an AANDC Inspector provide confirmation that no compliance issues associated with the site remain outstanding.

At the time of the initial review of this request it was not known by AANDC reviewers when a Compliance Inspection of the site would be filed. On August 10, 2011 an Inspection by a Resource Management Officer, was conducted and filed with our offices on September 9, 2011. A copy of this Inspection Report and associated photos has been attached to this letter for your review.

After a review of this report and by copy of this letter it is the recommendation of the Field Operations Section-AANDC, that this file may be approved for closure.

Should you have any concerns with respect to this information please feel free to contact this office with any questions you may have.

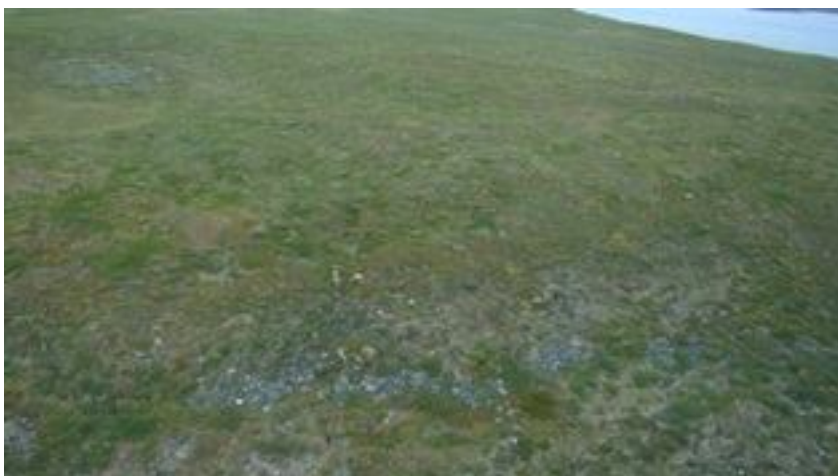

Thank you,

Original Signed this date
